Reconstruction: a Tragic Era? Seth M. Scheiner, 1968 **Reconstruction. A Tragic Era? Edited by Seth M. Scheiner** Seth Mordecai SCHEINER, 1968 **American History** Herman L. Crow, William L. Turnbull, 1971 **Civil Wars and Reconstructions in the Americas** Evan C. Rothera, 2022-09-21 Winner of the Phi Alpha Theta Best First Book Award Winner of the Southern Indiana Civil War Roundtable Wabash Literary Prize In the latter half of the nineteenth century three violent national conflicts rocked the Americas the Wars of Unification in Argentina the War of the Reform and French Intervention in Mexico and the Civil War in the United States The recovery efforts that followed reshaped the Western Hemisphere In *Civil Wars and Reconstructions in the Americas* Evan C Rothera uses both transnational and comparative methodologies to highlight similarities and differences among the wars and reconstructions in the US Mexico and Argentina In doing so he uncovers a new history that stresses the degree to which cooperation and collaboration rather than antagonism and discord characterized the relationships among the three countries This study serves as a unique assessment of a crucial period in the history of the Americas and speaks to the perpetual battle between visions of international partnership and isolation The Journal of Southern History Wendell Holmes Stephenson, 1969 Includes section Book reviews Themes in U. Masterson,American Historical Association,1985 This book provides a comprehensive listing of the book length works published from 1962 to 1973 that are relevant to the study of American history and is organized into a subject classification system This bibliography gives access to over 50 000 works on the history the geography and the political social and economic aspects of the United States its people its government and its institutions The entries cover the entire area now within the United States or under its jurisdiction ranging from prehistoric times to 1973 Introd The National Experience: A history of the United States since 1865 John Morton Blum,Edmund S. Morgan,1993 A history of the United States with an emphasis on public policy Includes maps photos charts and suggestions for further reading *The Bureaucrat Kings* Paul D. Moreno,2016-11-14 Provocative in nature this work looks critically at the bureaucratic infrastructure behind the U S federal government from its origins as a self governing republic in the 18th century to its modern presence as a centralized institution This fascinating critique analyzes the inner workings of the American government suggesting that our federal system works not as a byproduct of the U S Constitution but rather as the result of liberal and progressive politics Distinguished academic and political analyst Paul D Moreno asserts that errant political movements have found loopholes in the U S Constitution allowing for federal bureaucracy a state he feels is a misinterpretation of America s founding dogma He contends that constitutionalism and bureaucracy are innately incompatible with the former suffering to accommodate the latter According to Moreno the leadership of the United States strayed from the democratic principles of the early founders and grew to what it is today a myriad of bureaucratic red tape couched in unreasonable policies A straightforward chronological narrative explains how non elected bureaucrats became powerful political mavens in America Each chapter covers several decades and features events spanning from the early history of the United States through coverage of the Affordable Care Act Obamacare of 2010
