## **Problem Of Poetry In The Romantic Period:**

The Problem of Poetry in the Romantic Period M. Storey, 2000-05-16 This book provides a lively exploration of the way in which several of the major British Romantic poets confront the writing and theorising of poetry The question What is a poet is asked and answered with great frequency and variety invariably there is an underlying sense of unease often in the shadow as it were of Wordsworth's lines We poets in our youth begin in gladness But thereof comes in the end despondency and madness The apparent confidence of the manifestoes is undermined by the self-doubts of much of the poetry ranging from Coleridge to John Clare

Romantic Poetry Angela Esterhammer, 2002-06-04 Romantic Poetry encompasses twenty-seven new essays by prominent scholars on the influences and interrelations among Romantic movements throughout Europe and the Americas It provides an expansive overview of eighteenth and nineteenth century poetry in the European languages The essays take account of interrelated currents in American Argentinian Brazilian Bulgarian Canadian Caribbean Chilean Colombian Croatian Czech Danish English Estonian Finnish French German Greek Hungarian Irish Italian Mexican Norwegian Peruvian Polish Romanian Russian Serbian Slovak Spanish Swedish and Uruguayan literature Contributors adopt different models for comparative study tracing a theme or motif through several literatures developing innovative models of transnational influence studying the role of Romantic poetry in socio-political developments or focusing on an issue that appears most prominently in one national literature yet is illuminated by the international context This collaborative volume provides an invaluable resource for students of comparative literature and Romanticism

**SPECIAL OFFER 30% discount for a complete set order 5 vols** The Romanticism series in the Comparative History of Literatures in European Languages is the result of a remarkable international collaboration The editorial team coordinated the efforts of over 100 experts from more than two dozen countries to produce five independently conceived yet interrelated volumes that show not only how Romanticism developed and spread in its principal European homelands and throughout the New World but also the ways in which the affected literatures in reaction to Romanticism have redefined themselves on into Modernism A glance at the index of each volume quickly reveals the extraordinary richness of the series total contents

**Romantic Irony** sets the broader experimental parameters of comparison by concentrating on the myriad expressions of irony as one of the major impulses in the Romantic philosophical and artistic revolution and by combining cross-cultural and interdisciplinary studies with special attention also to literatures in less widely diffused language streams

**Romantic Drama** traces creative innovations that deeply altered the understanding of genre at large fed popular imagination through vehicles like the opera and laid the foundations for a modernist theater of the absurd

**Romantic Poetry** demonstrates deep patterns and a sharing of crucial themes of the revolutionary age which underlie the lyrical expression that flourished in so many languages and environments

**Nonfictional Romantic Prose** assists us in coping with the vast array of writings from the personal and intimate sphere to modes of public discourse including Romanticism's own self-commentary in theoretical statements on the arts society life the sciences and

more Nor are the discursive dimensions of imaginative literature neglected in the closing volume *Romantic Prose Fiction* where the basic Romantic themes and story types the romance novel novella short story and other narrative forms are considered throughout Europe and the New World This enormous realm is seen not just in terms of Romantic theorizing but in the light of the impact of Romantic ideas and narration on later generations As an aid to readers the introduction to *Romantic Prose Fiction* explains the relationships among the volumes in the series and carries a listing of their tables of contents in an appendix No other series exists comparable to these volumes which treat the entirety of Romanticism as a cultural happening across the whole breadth of the Old and New Worlds and thus render a complex picture of European spiritual strivings in the late eighteenth and the nineteenth centuries a heritage still very close to our age **English Poetry of the Romantic Period, 1789-1830** John Richard Watson,1985 On its first appearance *English Poetry of the Romantic Period* was widely praised as one of the best introductions to the subject This edition includes updated material in the light of recent work in Romanticism and Romantic poetry The book discusses the concerns that linked the Romantic poets from their responses to the political and social upheavals around them to their interest in the poet's visionary and prophetic role It includes helpful and authoritative discussions of figures such as Blake Clare Coleridge Crabbe Keats Scott Shelley and Wordsworth *Evidences of Romanticism in the Poetry of Medieval England* Sister Mary Eunice Rasin,1929 **The Chapbook**,1922 *Romantic Poetry* Karl Kroeber,Gene W. Ruoff,1993 This anthology fills the need for a comprehensive up to date collection of the most important contemporary writings on the English romantic poets During the 1980s many theoretical innovations in literary study swept academic criticism Many of these approaches from deconstructive new historicist and feminist perspectives used romantic texts as primary examples and altered radically the ways in which we read Other major changes have occurred in textual studies dramatically transforming the works of these poets The world of English romantic poetry has certainly changed and *Romantic Poetry* keeps pace with those changes Karl Kroeber and Gene W Ruoff have organized the book by poet Blake Wordsworth Coleridge Byron Shelly and Keats and have included essays representative of key critical approaches to each poet's work In addition to their excellent general introduction the editors have provided brief helpful forewords to each essay showing how it reflects current approaches to its subject The book also has an extensive bibliography sure to serve as an important research aid Students on all levels will find this book invaluable *Romantic Literature in Light of Bakhtin* Walter L. Reed,2014-02-27 A major new piece of scholarship on Bakhtin and the idea of personality in literary theory **Methods Used in Growing Peas for Canning in Maine and the Problems Connected with Their Economical Production** Marion Katharyn Bragg,Maurice Daniel Jones,Rose Mary Davis,Walter Brown Smith,1926 *Issues in Literary Theory, History and Criticism* Chinyere Nwahunanya,1998 *The Family, Marriage, and Radicalism in British Women's Novels of the 1790s* Jennifer Golightly,2012-02-01 This book explores the ways in which five female radical novelists of the 1790s Elizabeth Inchbald Eliza Fenwick Mary Hays Charlotte Smith and Mary

Wollstonecraft attempted to use the components of private life to work toward widespread social reform. These writers depict the conjugal family as the site for a potential reformation of the prejudices and flaws of the biological family. The biological family in the radical novels of female writers is fraught with problems: greed and selfishness pervert the relationships between siblings and neglect and ignorance characterize the parenting received by the heroines. Additionally, the radical novelists responding to representations of biological families as inherently restrictive for unmarried women develop the notion of marriage to a certain type of man as a social duty. Marriage between two properly sensible people who have both cultivated their reason and understanding and who can live together as equals sharing domestic responsibilities is shown to be an ideal with the power to create social change. Positioning their depictions of marriage in opposition to earlier feminist depictions of female utopian societies, the female radical novelists of the 1790s strive to depict relationships between men and women that are characterized by cooperation, individual autonomy, and equality. What is most important about these depictions is their ultimate failure. Most of the female radical novelists find such marriages nearly impossible to conceptualize. Marriage for many of the female radical novelists was an institution they perceived as inextricably related to male concerns about property and inescapably patriarchal under the marriage laws of late eighteenth-century British society. Unions between two worthy individuals outside the boundaries of marriage are shown in the female radical novels to be equally problematic. Sex inevitably is the basis for such unions, yet sex leaves women vulnerable to exploitation by men. Rather than the triumph therefore of what comes to be in these novels, the male-associated values of property and power through marriage, the female radical novels end by suggesting an alternative community, one that will shelter those members of society who are most frequently exploited in male attempts to accumulate this property and power: women, servants, and children.
