Samuel Laing,2017-12-22 Excerpt from Problems of the Future and Essays So it is with modern science For centuries it had to grope its pur blind way through dense jungles of superstitious ignorance where misty shapes of theological and metaphysical speculation obscured the real facts of the universe or were mistaken for them At length and comparatively quite recently the human intellect emerged into the light of day and gaining the first heights began to acquire accurate ideas of the true laws and constitution of the universe The progress once begun went on at an accelerated rate until in the last half century it has carried with it in an impetuous torrent Old creeds and cherished convictions like so much drift wood oating on the surface of Lake Erie when caught by the cur rent which hurries it down the Falls of Niagara About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Laing,...* Samuel Laing (le jeune.),1889      **Problems of the Future and Essays** HardPress,Laing Samuel 1812-1897,2013-06 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy      College and the Future Richard Ashley Rice,1915      Problems of the Future and Essays Samuel LAING (the Younger.),1889      *College and the Future* Richard Ashley Rice,2019-07-05 This is a reproduction of the original artefact Generally these books are created from careful scans of the original This allows us to preserve the book accurately and present it in the way the author intended Since the original versions are generally quite old there may occasionally be certain imperfections within these reproductions We re happy to make these classics available again for future generations to enjoy      *Essays on the Future* Siegfried Hecker,Gian-Carlo Rota,2013-12-01 The present work represents a unique undertaking in scientific publishing to honor Nick Metropolis who passed away in October 1999 Nick was the last survivor of the Manhattan Project that began during World War II in Los Alamos and later became the Los Alamos National Laboratory In this volume some of the leading scientists and humanists of our time have contributed essays related to their respective disciplines exploring various aspects

of future developments in science technology and society Speculations on the future developments of science and society philosophy national security nuclear power pure and applied mathematics physics and biology particle physics computing information science among many others are included Contributors include H Agnew R Ashenhurst K Baclawski G Baker N Balazs J A Freed R Hamming M Hawrylycz O Judd D Kleitman M Krieger N Krikorian P Lax J D Louck T Puck M Raju R Richtmyer J Schwartz R Sokolowski E Teller M Waterman

**College and the Future** Richard Rice,2015-07-04 Excerpt from *College and the Future* Essays for the Undergraduate on Problems of Character and Intellect There is no enlargement unless there be a comparison of ideas one with another as they come before the mind and a systematizing of them We feel our minds to be growing and expanding then when we not only learn but refer what we learn to what we know already Cardinal Newman The object of this volume is to present a set of essays which form a close sequence of ideas a little philosophy about the present interests and the future problems of the undergraduate It is hoped that he may find in them a series of facts and opinions that will be naturally productive of further opinions and investigation on his part The chief intention of the book is to be gathered from the order of the essays which enables the writer of themes to proceed from one discussion to another logically resulting discussion accumulating thought instead of writing himself out in rather scattered and casual efforts Owing to the variety of the materials which illustrate many kinds of writing he has an unusual chance to gain true impressions of manner and method because he can here see what different styles do for the drift of the same general argument The essays make chapters of a book that may be read from cover to cover as a unit A brief commentary will serve here better than elsewhere to describe some of its practical uses as a text for courses in writing About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
