

Principles of Management

Meaning of Management Principles

These are broad and general guidelines which help the manager in day to day decision making and guide their behaviour.

Principles of Management vs Principles of Pure Science

Management principles are quite flexible i.e. they can be changed acc. to a given situation whereas principles of pure science are rigid in their nature.

Henry Fayol

values are something which are acceptable or desirable. They have moral connotations. Principles are guidelines for behaviour.

Principles of Management vs Techniques of Management

Techniques are **procedures** or **methods** which involve a **series of steps** to be taken to achieve desired goals. Principles are guidelines to take decisions while practicing techniques.

Henry Fayol's Principles of Management

1) Division of Work

Work is divided into small tasks / jobs. A trained specialist who is competent is reqd to perform each job. Thus, division of work leads to specialisation. Acc. to Fayol, "The intent to division of work is to produce more and better work for the same effort". In a Co., we have separate departments for finance, marketing, production and human resource development etc.

Fayol applies this principle to all kinds of work, technical as well as managerial.

2) Authority & Responsibility - (N.C.E.R.T Eqn)
