Microsoft Powerpoint Creating Presentations:

File > New > Presentation Simon Guest,2013-11-01 If you re anything like me you ve experienced far too many presentations in the IT industry that fail to connect with the audience and never achieve what they set out to do Presentations that reel off facts yet don t tell a story Presentations that are overwhelmed with pages of text and bullet points Presentations that show diagrams that no one understands Presentations that go well under or overtime and are clearly not rehearsed Presentations where demos routinely fail in front of packed crowds All delivered by presenters who make numerous mistakes while they are on stage File New Presentation was written to give you the tools and techniques to avoid these pitfalls and dramatically increase your presentation skills These skills go well beyond just creating a slide deck and include understanding your audience planning the structure of your talk rehearsing delivering demos preparation and improving what you do behind the podium With recommendations targeted towards software developers and other technical professionals you ll gain the knowledge to take your next presentation and maybe even your career to the next level
