Congress. House. Committee on Interior and Insular Affairs, 1992 **Annual Report of the Department of Conservation of the State of Indiana** Indiana. Department of Conservation, 1929 **Laws Applicable to the United States Department of Agriculture** U.S. Department of Agriculture, 1908 *Appendix to the Journals of the House of Representatives of New Zealand* New Zealand. Parliament. House of Representatives, 1903 **Audubon**, 1905 **The Kiva**, 1993 **Louisiana Conservation Review**, 1930 **Department of the Interior and Related Agencies Appropriations for 1992** United States. Congress. House. Committee on Appropriations. Subcommittee on Department of the Interior and Related Agencies, 1991 **Conservation Trusts** Sally K. Fairfax, Darla Guenzler, 2001 In the wake of the Exxon Valdez oil spill a conservation trust helped stabilize and regenerate the damaged area When bird habitats along the Platte River were threatened by Grayrocks Dam a similar trust came to their rescue And if a family wants to protect its land for future generations establishing a trust may be the best solution For more than a century bequests of land and funds for environmental protection have been common but in recent decades the trusts used to address conservation issues and resolve environmental disputes have diversified and grown significantly This book examines a variety of conservation organizations built on or close to trust principles some government creations some private some combinations of the two to explain how conservation trusts are created and how they work It explores strengths and weaknesses of the trust concept considers the widespread use of land trusts and presents case studies that both illustrate successes and give instructive examples of potential pitfalls Drawing on cases from Maine to Hawaii the authors examine the different kinds and configurations of trusts They consider government trusts that blend federal state and local agencies into a single entity or that derive funding from outside legislative and executive channels trusts established by government and private cooperation to share responsibility for jointly held and managed resources and trusts established by private organizations and families For each type they explain why each is created how it operates and whether it has been proven effective They also address the important issue of accountability and consider when a trust is not the answer to a problem As more Americans reject federal control of land in favor of local determination land trusts have become the most popular tool for the preservation of land habitats and species And as the sharing of authority among public private and diverse government partners becomes

more prevalent sound guidelines for establishing effective trusts are critical This book shows how the trust template provides an invaluable approach for future conservation efforts and is a primer for anyone involved in environmental management
