

EARLY INTERVENTION

An early start to improve your child's development

A child with developmental delay can progress better by starting therapies early

WHY INTERVENE EARLY?

Child's brain is most capable of change and adaptation during this age

The first three years of a child's development are the most crucial

Pediatrician provides medical care to infants, children and adolescents.

Psychologist analyzes and addresses emotional & behavioral challenges in a child.

A Speech therapist works to improve a child's speech, language and communication.

Special educators shape a child's thinking, learning skills and social interactions.

Physiotherapist helps build muscle strength & improve motor development.

Occupational therapist helps develop hand function & skills required for daily living.

"An early intervention team is a multidisciplinary team of therapists, with the parents playing a central role in its operations."

The success of any intervention depends a lot on the family's involvement.

You must insist on being involved

You must encourage your child's therapists to work together.
