A Guide to Writing in the Sciences Andrea A. Gilpin, Patricia Patchet-Golubev, 2000-12-15 While teaching writing to undergraduate science students Gilpin and Patchet Golubev discovered that although many relatively sophisticated manuals for scientific writing exist most are aimed at mainly professionals or specialists and are of little practical use to the majority of students This introductory guide fills that large gap Direct and friendly in tone the book provides clear and concise explanations of the basic elements of scientific writing required of students The various genres are detailed in particular lab reports and research essays as well as scientific articles poster presentations proposals and even essay exams Similarities and differences among these genres are underlined in order to illustrate structural principles and to provide practical writing

tips A detailed chapter covers the elements of grammar and punctuation that are fundamental to all good writing it also outlines some key points about scientific style in particular Using accessible language throughout the authors organize their material with helpful lists copious examples and boxed writing and research tips There are several useful appendices including a classification chart of organisms and an international units conversion chart an index and selected bibliography on science and technical writing Unique in its field this guide offers a practical and valuable guide to the basic principles and conventions of science writing *Prentice Hall Reference Guide to Grammar and Usage* Muriel Harris,2003-10-01
