

FREEDOM OF THE PRESS

DEFINITION

Freedom of the press is a fundamental right that enables the media to investigate, publish, and broadcast without censorship or fear of punishment from the government. It is essential to democratic societies as it promotes transparency and accountability by informing citizens about matters of public interest.

EXAMPLE

The Pentagon Papers serve as a salient example of the freedom of the press. Published by The New York Times in 1971, these documents exposed the U.S. government's deceptions about Vietnam War activities. The government tried to suppress the dissemination of these papers, but the US Supreme Court upheld the Times' right to publish.
