Mexico Through My Kitchen Window Maria A. de Carbia, 1938 **Que Vivan Los Tamales!** Jeffrey M. Pilcher, 1998

Connections between what people eat and who they are between cuisine and identity reach deep into Mexican history beginning with pre Columbian inhabitants offering sacrifices of human flesh to maize gods in hope of securing plentiful crops This cultural history of food in Mexico traces the influence of gender race and class on food preferences from Aztec times to the present and relates cuisine to the formation of national identity The metate and mano used by women for grinding corn and chiles since pre Columbian times remained essential to preparing such Mexican foods as tamales tortillas and mole poblano well into the twentieth century Part of the ongoing effort by intellectuals and political leaders to Europeanize Mexico was an attempt to replace corn with wheat But native foods and flavors persisted and became an essential part of indigenista ideology and what it meant to be authentically Mexican after 1940 when a growing urban middle class appropriated the popular native foods of the lower class and proclaimed them as national cuisine Catalog of Copyright Entries. Wolff, 2025-04-01 How the visual culture of food cookery and consumption played a central role in the making of postrevolutionary Mexico Postrevolutionary Mexico City was a site of anxious nation building as rampant modernization converged and clashed with the nation s growing nostalgia for its pre Columbian heritage During this volatile period food became a meaningful symbol for a Mexican citizenry seeking new modes of national participation Culinary Palettes explores how the artistic invocation of food cultures became an arena in which to negotiate the political entanglements of postrevolutionary Mexico Lesley Wolff casts a nuanced eye on the work of visual artists such as Tina Modotti Carlos Gonz lez and Rufino Tamayo who nurtured the symbolic and performative power of iconic foods such as pulque mole poblano and watermelon Through analysis of a wide array of visual evidence including paintings architecture vintage postcards menus and cookbooks Culinary Palettes demonstrates how these artists positioned their work within a broad visual landscape that relied upon the power of Mexican foodways in the urban and national imagination In the studios of modernists Wolff argues artistic production foodways and Indigeneity proved to be mutually constitutive and at times weaponized agents in articulating competing claims to a new nationhood **Mexico this Month** , 1967 **Catalog of the Latin American Collection** University of Texas at Austin.
