Our Sixth Sense Charles Robert Richet, 1929 **Our Sixth Sense** J. M. Sánchez-Pérez, 1979 **Swirl : Exploring Spirituality** Michael Alexander, 2001 **Trust Your Vibes** Sonia Choquette, Ph.D., 2005-03-01 In this fascinating and informative book spiritual teacher and psychic Sonia Choquette reveals the secrets you need to awaken your intuitive voice and trust your vibes If you re ready to step into a Divine more energetically uplifting experience and live an easier more satisfying way of life you ll learn how to do so within these pages In this work Sonia presents real life stories of those who learned to tap into their intuition to drastically change and improve their lives see what they do how they think the choices they make and the attitudes and perspectives they own In modeling yourself after sixth sensory people you too can activate your own intuitive channel Your intuition supports your creativity helps heal your emotional wounds and calms your anxious and uncertain heart It brings you peace of mind and shows you how to live in a higher more harmonious way To fully enjoy your life and to access the innatesense of security confidence and courage you deserve learn to trust your vibes [The Sixth Sense](#) Charles Henry Brent, 2020-04-08 The only real valuable thing is intuition Albert Einstein Your sixth sense is the world inside your head the world of intuition or psychic power It is a super sense the cumulative power of all your other senses sight hearing touch smell and hearing It s also an amazing source of creative power understanding and insight Everyone can tune into their sixth sense but most choose to ignore it Charles Henry Brent published more than twenty books His works reveal a man absorbed in the problems and mysteries of the inner life His book on the sixth sense is hugely interesting Excerpt Mystic Sense likewise first comes to our attention as a simple faculty of perception by which we gain cognition of that department of reality that transcends bodily touch and its sub divisions but study reveals that its unity is ordered complexity as in the case of all developed endowments Broadly speaking it is the sense which relates man to the spiritual or psychic aspect of reality It puts us into relation with the spiritual order of which we are a part It finds room for exercise gains its freedom and reaches its highest development in this sphere beginning operations at the point where the bodily senses are compelled by inherent limitations to halt It discerns the innermost character use value of the objective and differentiates between the human and the animal estimate of things Indeed it has in it that which is not of this world or order It soars beyond human and mundane affairs and steps its wings in Divine altitudes where the throne of God is set Not only does it perceive but it also lays hold of and appropriates that phase of reality which lies beyond the unaided reach or eludes the grasp of all the rest of our faculties in their happiest combination and therefore of any one of them independently
