Suzanne Gearhart,2019-02-19 Challenging the view that a critical sense of history is missing from the Enlightenment  
Suzanne Gearhart links the works of Voltaire Montesquieu Diderot and Rosseau with the inquiry into the boundary between  
literature and history in contemporary critical discourse She considers the theories of Levi Strauss Foucault Althusser  
Genette White de Man and Derrida in order to develop a critical approach to fiction and history and to reveal that  
investigations into the foundations of historical knowledge and specifically into what distinguishes history from fiction were  
central to the Enlightenment This book questions many assumptions basic to contemporary criticism by establishing a  
dialogue between major theorists and Enlightenment figures It challenges certitudes of fiction and literature by examining  
the historicity of language form and literature itself redefining history to show its crucial relevance to literary studies and  
opening historiography to the insights of literary theory Suzanne Gearhart is Associate Professor of Literature at the  
University of California San Diego Originally published in 1984 The Princeton Legacy Library uses the latest print on demand  
technology to again make available previously out of print books from the distinguished backlist of Princeton University Press
