Plunderbund Proletariat:

Plunderbund & Proletariat Jack Scott,1975 Hobohemia and the Crucifixion Machine Todd McCallum,2014-12-28 In the early years of the Great Depression thousands of unemployed homeless transients settled into Vancouver s hobo jungle The jungle operated as a distinct community in which goods were exchanged and shared directly without benefit of currency The organization of life was immediate and consensual conducted in the absence of capital accumulation But as the transients moved from the jungles to the city they made innumerable demands on Vancouver s Relief Department consuming financial resources at a rate that threatened the city with bankruptcy In response the municipality instituted a card control system no longer offering relief recipients currency to do with as they chose It also implemented new investigative and assessment procedures including office spies to weed out organizational inefficiencies McCallum argues that threatened by this ungovernable society Vancouver s Relief Department employed Fordist management methods that ultimately stripped the transients of their individuality Vancouver s municipal government entered into contractual relationships with dozens of private businesses tendering bids for meals in much the same fashion as for printing jobs and construction projects As a result entrepreneurs clamoured to get their share of the state spending With the emergence of work relief camps the provincial government harnessed the only currency that homeless men possessed their muscle This new form of unfree labour aided the province in developing its tourist driven image economy as well as facilitating the transportation of natural resources and manufactured goods It also led eventually to the most significant protest movement of 1930s Canada the On to Ottawa Trek Hobohemia and the Crucifixion Machine explores the connections between the history of transiency and that of Fordism offering a new interpretation of the economic and political crises that wracked Canada in the early years of the Great Depression **Capitalism and Colonialism: The Making of Modern Canada 1890-1960** Bryan D.

Palmer,2025-09-02 This second volume of Bryan Palmer s history of Canada covers 1890 to 1960 Weaving together themes that include business labour politics and social history this account brings the experiences of Indigenous peoples into the centre of the narrative Canada experienced extraordinary growth during these decades notably after the Second World War when many Canadians quickly became far better off Yet vast inequalities persisted Indigenous peoples experienced ongoing and often worsening deprivation and ordinary people saw little or no real improvement in their lives These realities set the stage for the interplay of reform resistance and reaction that followed after 1960 Palmer examines the continuing role of capitalism and colonialism in structuring Canada in the period between 1890 and 1960 from capital s conflicts and fragile ententes with labour to the struggles of Indigenous Peoples and francophone Canada and the changing role of Canadian capital internationally Relying on the work of scholars who have produced a vast academic literature on a wide range of topics in Canadian history Bryan Palmer offers a new history of Canada which reflects the knowledge and values of 21st century Canadians *Joe Hill* Franklin Rosemont,2015-12-18 A monumental work expansive in scope covering the life times

and culture of that most famous of the Wobblies songwriter poet hobo thinker humorist martyr Joe Hill It is a journey into the Wobbly culture that made Hill and the capitalist culture that killed him Many aspects of the life and lore of Joe Hill receive their first and only discussion in IWW historian Franklin Rosemont s opus In great detail the issues that Joe Hill raised and grappled with in his life capitalism white supremacy gender religion wilderness law prison and industrial unionism are shown in both the context of Hill s life and for their enduring relevance in the century since his death Collected too is Joe Hill s art plus scores of other images featuring Hill inspired art by IWW illustrators from Ralph Chaplin to Carlos Cortez as well as contributions from many other labor artists As Rosemont suggests in this remarkable book Joe Hill never really died He lives in the minds of young and old rebels as long as his songs are sung his ideas are circulated and his political descendants keep fighting for a better day

Urbanization and Urban Planning in Capitalist Society Michael Dear, Allen Scott, 2018-06-12 Originally published in 1981 Urbanization and Urban Planning in Capitalist Society is a comprehensive collection of papers addressing urban crises Through a synthesis of current discussions around various critical approaches to the urban question the book defines a general theory of urbanization and urban planning in capitalist society It examines the conceptual preliminaries necessary for the establishment of capitalist theory and provides a theoretical exposition of the fundamental logic of urbanization and urban planning It also provides a detailed discussion of commodity production and its effects on urban development

Wobblies, Pile Butts, and Other Heroes Archie Green, 1993 In this culmination of his half century of involvement with American workers and their traditions Archie Green explores occupational expression stories songs customs beliefs artifacts on the job and in institutions such as trade unions Combining ethnographic description with analysis drawn from folklore history literary criticism art history linguistics and philosophy Green presents ten case studies in which he reflects on single words as social texts Wobbly fink and clustered words within anecdotes tales and ballads John Henry Homestead s strike songs job yarns about cuckoldry and sexual impotence and pile driving traditions for example Drawing on Green s own experience as a shipwright and carpenter the book will appeal both to workers curious about their history and traditions and to academicians who study the workforce and labor process

A Thousand Blunders Frank Leonard, 2011-11-01 During the first two decades of this century the Grand Trunk Pacific Railway played an important part in the development of the north central corridor of British Columbia The GTP which ran from Winnipeg via the Yellowhead Pass and Edmonton to Prince Rupert on the northwest coast was built to supplant the Canadian Pacific line to Vancouver The B C line was the most expensive and least remunerative of its sections and contributed ultimately to the company s collapse in 1919 In **A Thousand Blunders** Frank Leonard looks at why the Road of a Thousand Wonders failed to live up to the expectations forecast by company president Charles M Hays and other senior managers Not only was the railway built through a sparsely settled region which generated little immediate traffic but its economic difficulties were also compounded by the numerous mistakes made by managers at all levels for example their failure to respond adequately to labour shortages

caused serious delays and prevented the company from proving Prince Rupert as an effective alternative harbour before World War I broke out For this book Frank Leonard had access to a wealth of original documents among them the GTP legal department files providing him with insights into the decisions that formed the basis for policies in townsites and on Indian reserves A Thousand Blunders is a provocative account of one of the greatest failures in Canadian entrepreneurial history Richly detailed and thoroughly documented it makes an important contribution to the fields of railway and business history as well as to the study of the history of northern British Columbia LLT ,2001 Subject Catalog Library of Congress,1977 **Subject Catalog, 1977** Library of Congress,1977 International Books in Print ,1979 Industrial Unionist ,1968 *A Very Ordinary Life* Phyllis Knight,Rolf Knight,1974 Bibliographic Guide to Business and Economics New York Public Library.
