Plurality And Quantification:

Plurality and Quantification F. Hamm, Erhard W. Hinrichs, 2013-03-14 The papers in this volume address central issues in the study of Plurality and Quantification from three different perspectives Algebraic approaches to Plurals and Quantification Distributivity and Collectivity Theoretical Foundations Distributivity and Collectivity Empirical Investigations Algebraic approaches to the semantics of natural languages were independently introduced for the study of generalized quantification predication intensionality mass terms and plurality The most prominent modern advocate for an algebraic theory of plurality and mass terms is certainly Godehard Link It is indicative of the Wirkungsgeschichte of Link's work that most of the contributions in this volume take the logic of plurals proposed by Godehard Link Link 1983 1987 as their foundation or at the very least as their point of reference Link's own paper in this volume provides a concise summary of many of the central research issues that have engaged semanticists during the last decade Link's paper also contains an extensive bibliography that provides an excellent resource for scholars interested in the semantics of plurals Since we can refer readers to Link's paper for an excellent survey of the subject matter of this book we will limit our attention in this introduction to summarizing the individual contributions in this volume The book is organized into three main sections within each section the papers are ordered alphabetically However as in much of linguistic theorizing there is an exception for reasons pointed out above Godehard Link's article appears as Chapter 1

The Logical Form of Quantification and Plurality in Natural Language Brendan Gillon, 1984

Dynamics of Plurality in Quantification and Anaphora Linton I-chi Wang, 2005

Tense-aspect, Transitivity and Causativity Werner Abraham, L. I. Kulikov, 1999-01-01 This collection presents typological work on tense aspect and epistemic modality in a variety of languages and against the background of different schools of thinking among which the St Petersburg Typological School developed and so masterfully implemented by the Petersburg linguist Vladimir Petrovich Nedjalkov The volume honors this reputed scholar for his life work It is in mainly this spirit and the EUROTYPE spirit that the following scholars have contributed to the volume T Tsunoda on Warrungu Australian indigenous language L Kulikov on Vedic K Kiryu on Japanese Korean and Newari N Sumbatova on Svan from the Kartvelian group T Bulygina A Shmelev on Russian W Boeder on Georgian R Thieroff on aorist and imperfect in European languages Y Poupynin on Russian L Johanson on Kipchak Turkic I Dolinina on Russian N Kozintseva on Old and Modern Eastern Armenian Ch Lee on Korean W Abraham on split ergative languages and German G Silnitsky on Russian V Plungian on Russian E Rakhilina on Russian and K Ebert on Kalmyk

Essays on Turkish Linguistics Sila Ay, 2009 This book contains 48 papers presented at the Fourteenth International Conference on Turkish Linguistics held by Ankara University in August 6-8 2008 The contributions to this conference cover a wide range of topics in theoretical descriptive and applied linguistics relating to Turkish and Turkic languages in discussing a great variety of issues related to phonology and phonetics morphology syntax and semantics pragmatics and discourse language acquisition language contact and applied linguistics as

they have been grouped in this volume. Although the main focus of the volume is on Turkish linguistic issues, there are also a number of articles in different modern linguistic frameworks dealing with Turkic languages and Turkish dialects. The book will be appealing to anyone interested in current issues in theoretical linguistics as well as those who are working on Turcology, linguistic typology, contact linguistics, and applied linguistics.

Reason, Method, and Value Dale Jacquette, 2013-05-02
 Nicholas Rescher has enjoyed a long and distinguished career in philosophy, writing on many different areas from logic to philosophy of language, epistemology, pragmatism, ethics, and political philosophy and metaphilosophy. *Reason, Method, and Value: A Reader on the Philosophy of Nicholas Rescher* offers a selection of Rescher's writings over a span of decades, representing the core of his prodigious research interests in six key areas. Each section of the Reader is accompanied by a compact critical introduction written by a leading philosophical scholar with special expertise in Rescher's philosophy, and the volume opens with an appreciative introduction written by the editor and a concluding retrospective by Rescher looking back over his oeuvre and explaining connecting themes and the unity of system contained in this extensive body of work. Taken together, the volume encapsulates the heart of Rescher's impressive lifelong contributions to philosophy between two covers in a single volume that provides a solid overview of his thought while serving to direct readers to the corpus of Rescher's writings for a more complete picture.

Studies in 20th Century Philosophy Nicholas Rescher, 2013-05-02
 Set of studies of various movements and developments in 20th century philosophy in which Nicholas Rescher was involved as a participant.

Topics in Philosophical Logic N. Rescher, 2013-03-09
 The aim of the book is to introduce the reader to some new areas of logic which have yet to find their way into the bulk of modern logic books written from the more orthodox direction of the mainstream of developments. Such a work seems to me much needed both because of the intrinsic value and increasing prominence of the nonstandard sector of logic and because this particular sector is of the greatest interest from the standpoint of philosophical implications and applications. This book unites a series of studies in philosophical logic, drawing for the most part on material which I have contributed to the journal literature of the subject over the past ten years. Despite the fact that some of these essays have been published in various journals at different times, they possess a high degree of thematic and methodological unity. All of these studies deal with material of substantial current interest in philosophical logic and embody a fusion of the modern techniques of logical and linguistic philosophical analysis for the exploration of areas of logic that are of substantial philosophical relevance.

Formal Grammar Philippe de Groote, Mark-Jan Nederhof, 2012-07-16
 This book constitutes the refereed proceedings of the 15th and 16th International Conference on Formal Grammar 2010 and 2011, collocated with the European Summer School in Logic, Language, and Information in July 2010/2011. The 19 revised full papers were carefully reviewed and selected from a total of 50 submissions. The papers deal with the following topics: formal and computational phonology, morphology, syntax, semantics, and pragmatics; model theoretic and proof theoretic methods in linguistics; logical aspects of linguistic structure; constraint based

and resource sensitive approaches to grammar learnability of formal grammar integration of stochastic and symbolic models of grammar foundational methodological and architectural issues in grammar mathematical foundations of statistical approaches to linguistic analysis

The Journal of Symbolic Logic Alonzo Church, Cooper Harold Langford, 1980 Includes lists of members

Logic & Natural Language Hanoeh Ben-Yami, 2004 The main purpose of this volume is to demonstrate several significant distinctions between the predicate calculus and natural language distinctions that make the former inadequate for the study of the semantics and logic of the latter

LACUS Forum Linguistic Association of Canada and the United States, 2004

Proceedings of the ... Eastern States Conference on Linguistics, 1989

Language Monographs Linguistic Society of America, 1930

Proceedings of the Western Conference on Linguistics Vida Samiian, 1998-09

Pragmatics, Discourse and Text Erich Steiner, Robert Veltman, 1988

Topic and Focus Chungmin Lee, 2007-01-16 This book contains a collection of papers exploring the cross linguistic expression of topic and focus A diverse set of perspectives from some of the leading scholars in the areas of semantics and intonation are represented in the collection which is based on papers presented at the Topic and Focus Workshop at the 2001 LSA Summer Institute in Santa Barbara This book is unique in the breadth of its typological coverage of topic and focus phenomena Material is presented from nine languages including several that are severely under documented from a theoretical perspective The expression of topic and focus are integral aspects of linguistic communication that introduce the content of discourse and emphasize its most crucial elements Topic and focus phenomena are complex and involve both a meaning and a prosodic component This book is the first collection of papers devoted to the rigorous examination of both semantic and intonational features of topic and focus from a broad typological perspective
