Landscape Infrastructure Ying-Yu Hung, Gerdo Aquino, Charles Waldheim, Julia Czerniak, Adriaan Geuze, Matthew Skjonsberg, Alexander Robinson, 2012-11-05 Infrastructure is a much discussed topic within the field of landscape architecture. It regards the entire urban and rural space as a network that calls for an integrated planning and urban design approach. Natural and man-made infrastructures are viewed as forming a single overarching whole. The book examines this robust and ecologically sustainable approach with essays by well-known experts in the field. It also documents 14 international case studies by SWA landscape architects and urban designers among them the technologically innovative roof domes for Renzo Piano's California Academy of Science in San Francisco, the restoration of the Buffalo Bayou in Houston and several master plans for ecological corridors in China and Korea. Other projects develop smart re-use concepts for railroad tracks that no longer serve their original purpose such as Kyung Chun railway in Seoul or Katy Trail in Dallas. All projects are described extensively with technical diagrams and plans. The publication offers ideas for reinventing, repurposing and repositioning infrastructure as a viable medium for addressing issues of ecology, transit, urbanism and habitat.

The Ethics of Aquinas Stephen J. Pope, 2002 In this comprehensive anthology twenty-seven outstanding scholars from North America and Europe address every major aspect of Thomas Aquinas's understanding of morality and comment on his remarkable legacy. While there has been a revival of interest in recent years in the ethics of St Thomas no single work has yet fully examined the basic moral arguments and content of Aquinas' major moral work, the Second Part of the Summa Theologiae. This work fills that lacuna. The first chapters of *The Ethics of Aquinas* introduce readers to the sources, methods and major themes of Aquinas's ethics. The second part of the book provides an extended discussion of ideas in the Second Part of the Summa Theologiae in which contributors present cogent interpretations of the structure, major arguments and themes of each of the treatises. The third and final part examines aspects of Thomistic ethics in the twentieth century and beyond. These essays reflect a diverse group of scholars representing a variety of intellectual perspectives. Contributors span numerous fields of study including intellectual history, medieval studies, moral philosophy, religious ethics and moral theology. This remarkable variety underscores how interpretations of Thomas's ethics continue to develop and evolve and stimulate fervent discussion within the academy and the church. This volume is aimed at scholars, students, clergy and all those who continue to find Aquinas a rich source of moral insight.

Vademecum Klaske Havik, Kris Pint, Svava Riesto, Henriette Steiner, 2024-04-12 *Vademecum 77* Minor Terms for Writing Urban Places offers a set of concepts that stimulate new approaches in planning, architecture, urban design, policy and other practices of spatial development. These diverse concepts might reveal blind spots in urban discourse or bring insights from one discipline to another. The term minor refers to the ambition to look at the local and social specificity of urban places and to challenge established discursive frameworks by giving voice to multiple actors in the debate.

Pragmatic Naturalism Richard J. Bernstein, 2020-08-18 Richard J Bernstein argues that despite the apparent chaotic debates about naturalism there has recently been a series of powerful arguments that support a version of naturalism that is in the spirit of John Dewey s pragmatic naturalism After presenting a sketch of Dewey s pragmatic naturalism he critically examines the works of a variety

of thinkers Robert Brandom John McDowell Richard Rorty Wilfrid Sellars Peter Godfrey Smith Philip Kitcher Bjorn Ramberg David Macarthur Steven Levine Mark Johnson Robert Sinclair Huw Price and Joseph Rouse to show how they have contributed analytic finesse to the articulation of Dewey's vision of pragmatic naturalism As Bernstein shows Dewey's philosophical legacy is very much alive today in some of the best recent philosophic discussions *Nietzsche's "Ecce Homo"* Nicholas Martin, Duncan Large, 2020-12-16 Friedrich Nietzsche's intellectual autobiography *Ecce Homo* has always been a controversial book Nietzsche prepared it for publication just before he became incurably insane in early 1889 but it was held back until after his death and finally appeared only in 1908 For much of the first century of its reception *Ecce Homo* met with a sceptical response and was viewed as merely a testament to its author's incipient madness This was hardly surprising since he is deliberately outrageous with the megalomaniacal self advertisement of his chapter titles and brazenly claims I am not a man I am dynamite as he attempts to explode one preconception after another in the Western philosophical tradition In recent decades there has been increased interest in the work especially in the English speaking world but the present volume is the first collection of essays in any language devoted to the work Most of the essays are selected from the proceedings of an international conference held in London to mark the centenary of the first publication of *Ecce Homo* in 2008 They are supplemented by a number of specially commissioned essays Contributors include established and emerging Nietzsche scholars from the UK and USA Germany and France Portugal Sweden and the Netherlands **Flügel-Schmidt-Tanger Wörterbuch der englischen und deutschen Sprache: Bd.
