Secrets Of Magic Volume 1:

The Secret History of Magic Peter Lamont, Jim Steinmeyer, 2018-07-17 Pull back the curtain on the real history of magic and discover why magic really matters. If you read a standard history of magic you learn that it begins in ancient Egypt with the resurrection of a goose in front of the Pharaoh. You discover how magicians were tortured and killed during the age of witchcraft. You are told how conjuring tricks were used to quell rebellious colonial natives. The history of magic is full of such stories which turn out not to be true. Behind the smoke and mirrors however lies the real story of magic. It is a history of people from humble roots who made and lost fortunes and who deceived kings and queens. In order to survive they concealed many secrets yet they revealed some and they stole others. They engaged in deception, exposure and betrayal in a quest to make the impossible happen. They managed to survive in a world in which a series of technological wonders appeared which previous generations would have considered magical. Even today when we now take the most sophisticated technology for granted we can still be astonished by tricks that were performed hundreds of years ago. **The Secret History of Magic** reveals how this was done. It is about why magic matters in a world that no longer seems to have a place for it but which desperately needs a sense of wonder.

The Secret Doctrine: Index to volumes 1-3 Helena Petrovna Blavatsky, 1895 [The Secret Doctrine \(Vol. 1-3\)](#) Helena Blavatsky, 2023-12-03 Helena Blavatsky's monumental work **The Secret Doctrine Volumes 1-3** serves as an intricate tapestry weaving together elements of theology, philosophy and science, integrating esoteric traditions with a profound exploration of the cosmos and human evolution. Written in a dense yet poetic literary style, the text is structured around the dual doctrines of the universal and the individual, rooted deeply in theosophical thought. Blavatsky draws upon a wide array of religious and philosophical sources, including Eastern and Western esotericism, to expound upon the idea of a hidden knowledge that transcends the physical realm, presenting her insights as both a critique of materialism and an invitation to spiritual awakening. Helena Blavatsky, a seminal figure in the Theosophical Society, was profoundly influenced by her travels to India and her studies of ancient wisdom traditions. Her quest for universal truths led her to challenge prevailing scientific and religious dogmas of the 19th century, positioning her as a pioneer of modern spirituality and a bridge between Eastern spirituality and Western thought. **The Secret Doctrine** is a must-read for anyone intrigued by metaphysics, spirituality and the quest for knowledge that transcends conventional wisdom. Blavatsky's comprehensive examination of the world's mystical traditions invites readers to explore the depths of their own consciousness and the interconnectedness of all existence.
