Pity Transformed:

Pity Transformed David Konstan, 2015-03-02 *Pity Transformed* is an examination of how pity was imagined and expressed in classical antiquity. It pays particular attention to the ways in which the pity of the Greeks and Romans differed from modern ideas. Among the topics investigated in this study are the appeal to pity in courts of law and the connection between pity and desert, the relation between pity and love or intimacy, self-pity, the role of pity in war and its relation to human rights and human dignity, divine pity from paganism to Christianity, and why pity was considered an emotion. This book will lead readers to ponder how the Greeks and Romans were both like and unlike us in this fundamental area of cultural sensibility.

Affective Meditation and the Invention of Medieval Compassion Sarah McNamer, 2011-07-07 Affective meditation on the Passion was one of the most popular literary genres of the high and later Middle Ages. Proliferating in a rich variety of forms, these lyrical, impassioned script-like texts in Latin and the vernacular had a deceptively simple goal: to teach their readers how to feel. They were thus instrumental in shaping and sustaining the wide-scale shift in medieval Christian sensibility from fear of God to compassion for the suffering Christ. *Affective Meditation and the Invention of Medieval Compassion* advances a new narrative for this broad cultural change and the meditative writings that both generated and reflected it. Sarah McNamer locates women as agents in the creation of the earliest and most influential texts in the genre, from John of F camp's *Libellus* to the *Meditationes Vitae Christi*, thus challenging current paradigms that cast the compassionate affective mode as Anselmian or Franciscan in origin. The early development of the genre in women's practices had a powerful and lasting legacy. With special attention to Middle English texts including Nicholas Love's *Mirror* and a wide range of Passion lyrics and laments, *Affective Meditation and the Invention of Medieval Compassion* illuminates how these scripts for the performance of prayer served to construct compassion itself as an intimate and feminine emotion. To feel compassion for Christ in the private drama of the heart, that these texts stage was to feel like a woman. This was an assumption about emotion that proved historically consequential. McNamer demonstrates as she traces some of its legal, ethical, and social functions in late medieval England.

Ancient Forgiveness Charles L. Griswold, David Konstan, 2012 In this book, eminent scholars of classical antiquity and ancient and medieval Judaism and Christianity explore the nature and place of forgiveness in the pre-modern Western world. They discuss whether the concept of forgiveness as it is often understood today was absent or, at all events, more restricted in scope than has been commonly supposed, and what related ideas such as clemency or reconciliation may have taken the place of forgiveness. An introductory chapter reviews the conceptual territory of forgiveness and illuminates the potential breadth of the idea, enumerating the important questions a theory of the subject should explore. The following chapters examine forgiveness in the contexts of classical Greece and Rome, the Hebrew Bible, the Talmud, and Moses Maimonides, and the New Testament, the Church Fathers, and Thomas Aquinas.
