*Scientific and Technical Libraries: Special formats and subjects areas* Nancy Jones Pruett, 1986      **Tools for Making Acute Risk Decisions** CCPS (Center for Chemical Process Safety), 2010-09-14 The complexity of today's risk decisions is well known. Beyond cost and risk, there are many other factors contributing to these decisions, including type of risk such as human injury or fatality, the economic impact on the local community, profitability, availability of capital, alternatives for reducing or eliminating the risk, costs of implementing alternatives, codes, standards, regulation, and good industry practice. This book presents a large range of decision aids for risk analysts and decision makers in industry so that vital decisions can be made in a more consistent, logical, and rigorous manner. Though primarily aimed at the process industry, this book can be used by anyone who makes similar decisions in other industries, including those in management science.      *Datapro*
