Six Masters of the Spanish Sonnet Willis Barnstone,1997 With poems selected and translated by one of the preeminent translators of our day this bilingual collection of 112 sonnets by six Spanish language masters of the form ranges in time from the seventeenth to the twentieth centuries and includes the works of poets from Spanish America as well as poets native to Spain Willis Barnstone s selection of sonnets and the extensive historical and biographical background he supplies serve as a compelling survey of Spanish language poetry that should be of interest both to lovers of poetry in general and to scholars of Spanish language literature in particular Following an introductory examination of the arrival of the sonnet in Spain and of that nation s poetry up to Francisco de Quevedo Barnstone takes up his six masters in chronological turn preceding each with an essay that not only presents the sonneteer under discussion but also continues the carefully delineated history of Spanish language poetry Consistently engaging and informative and never dull or pedantic these essays stand alone as appreciations in the finest sense of that word of some of the greatest poets ever to write It is however Barnstone s subtle musical clear and concise translations that form the heart of this collection As Barnstone himself says In many ways all my life has been some kind of preparation for this volume

The Complete Poems of Sappho Willis Barnstone,2009-03-10 A vivid contemporary translation of the greatest Greek love poet with a wealth of materials for understanding her work by a prize winning poet and translator Sappho s thrilling lyric verse has been unremittingly popular for more than 2 600 years certainly a record for poetry of any kind and love for her art only increases as time goes on Though her extant work consists only of a collection of fragments and a handful of complete poems her mystique endures to be discovered anew by each generation and to inspire new efforts at bringing the spirit of her Greek words faithfully into English In the past translators have taken two basic approaches to Sappho either very literally translating only the words in the fragments or taking the liberty of reconstructing

the missing parts Willis Barnstone has taken a middle course in which he remains faithful to the words of the fragments only very judiciously filling in a word or phrase in cases where the meaning is obvious This edition includes extensive notes and a special section of Testimonia appreciations of Sappho in the words of ancient writers from Plato to Plutarch Also included are a glossary of all the figures mentioned in the poems and suggestions for further reading

Healing the Split Marc Elihu Hofstadter, 2011 *Healing the Split* consists of the collected essays of poet literary critic and philosopher Marc Elihu Hofstadter The essays stretch from Hofstadter's early scholarly articles about poets William Carlos Williams and Yves Bonnefoy through articles published in the Redwood Coast Review about poetry art music science politics and France to recent articles concerning the split between the sciences and the humanities reason and feeling intuition faith The book embodies Hofstadter's consistent belief in the idea that all human activities are composed of an objective element and a subjective element Human knowledge whether scientific mathematical philosophical or artistic contains a degree of objective certainty mixed with a component of subjective feeling The differences between science and the humanities are differences of degree of objectivity not of essence and the knowledge the humanities display is a genuine form of knowledge less certain than science but rich in tangible felt experience Even early in his career as a literary critic Hofstadter was interested in how such otherwise diverse poets as Williams and Bonnefoy sacralize the coming together of mind and world in all forms of human experience As Williams put it No ideas but in things by which he meant not Let there not be any ideas but Let all ideas be inextricably entwined with the physical world Hofstadter argues that in all our activities there is a mixture of the thinking reasoning mind and the parts of us that feel perceive touch our bodies our hearts Science and philosophy are the great achievements of the mind while art and religion are the most powerful consummations of sensing and feeling yet science and philosophy are partly emotive and art and theology partly rational The difference again is in degree *Healing the Split* is an attempt to bring reason and feeling intuition faith together to show how they are intimately related The Buddhist faith is key to this effort because Buddhism doesn't analyze out reason and non rational knowledge as separate faculties but tries to unite them in a direct embodied kind of experience that heals the split between them and makes the individual human being whole In Buddhism everything we know is known through consciousness and distinctions between subject and object mind and world logic and faith become artificial since consciousness is essentially unitary And Buddhism sees all phenomena known through consciousness as being related in a universal web everything is connected ultimately to everything else and the world is essentially One *Healing the Split* is finally a work of mysticism in the line of Parmenides who believed that everything is one or the Kabbalists who worshipped the All in the form of Ha Shem the unnamable Name Marc Elihu Hofstadter was born in New York City in 1945 He received his B A in French literature from Swarthmore College in 1967 and his Ph D in Literature from the University of California at Santa Cruz in 1975 He has taught American literature at Santa Cruz the University of Orleans on a Fulbright Lectureship and Tel Aviv University In 1980 he obtained his Master of Library
