potency of monuments as dynamic and affectively loaded participants in society In the context of Ottawa Canada's capital  
city monuments inspire colonial and imperial nostalgia compelling visitors to consistently re imagine Canada as a white  
Anglophone nation built through the labour of white men politicians soldiers and businessmen At the same time Ottawa  
monuments allow for dominant affective relationships to the nation to be challenged demonstrated through subtle and  
explicit forms of defacement and other interactions that compel us to remember colonial violence pacifism violence against  
women racism Organized as a series of walking tours throughout Ottawa the chapters in *Tours Inside the Snow Globe*  
demonstrate the affective capacities of monuments and highlight how these monuments have ongoing relationships with their  
sites the city other monuments and local deliberate national and casual communities of users The tours focus on the lives of a  
monument to an unnamed Indigenous scout the National War Memorial Enclave the Women's Monument and the Canadian

Prendergast, 2015-11-12 In the South Transept of Westminster Abbey in London the bodies of more than seventy men and  
women primarily writers poets and playwrights are interred with many more memorialized From the time of the reburial of  
Geoffrey Chaucer in 1556 the space has become a sanctuary where some of the most revered figures of English letters are  
celebrated and remembered Poets Corner is now an attraction visited by thousands of tourists each year but for much of its  
history it was also the staging ground for an ongoing debate on the nature of British cultural identity and the place of poetry  
in the larger political landscape Thomas Prendergast's *Poetical Dust* offers a provocative far reaching and witty analysis of  
Poets Corner Covering nearly a thousand years of political and literary history the book examines the chaotic sometimes fitful  
process through which Britain has consecrated its poetry and poets Whether exploring the several burials of Chaucer the  
politicking of Alexander Pope or the absence of William Shakespeare Prendergast asks us to consider how these relics attest  
to the vexed melancholy ties between the literary corpse and corpus His thoughtful sophisticated discussion reveals Poets  
Corner to be not simply a centuries old destination for pilgrims and tourists alike but a monument to literary fame and the  
inevitable decay of the bodies it has both rejected and celebrated      *Rights in Concord: the Response to the
