Morals Law:

Making Men Moral Robert P. George, 1995-04-06 Contemporary liberal thinkers commonly suppose that there is something in principle unjust about the legal prohibition of putatively victimless immoralities Against the prevailing liberal view Robert P George defends the proposition that moral laws can play a legitimate if subsidiary role in preserving the moral ecology of the cultural environment in which people make the morally significant choices by which they form their characters and influence for good or ill the moral lives of others George shows that a defence of morals legislation is fully compatible with a pluralistic perfectionist political theory of civil liberties and public morality *Legal Pluralism in the Arab World* Badouin Dupret, Maurits Berger, Laila Al-Zwaini, 2023-03-20 Legal pluralism denotes both the multiple social fields which produce partially interacting norms and the state's recognition of the many sources of law which constitute its legislation It advocates a break from traditional legal theory in favour of describing the law from a more sociological and anthropological perspective The theory of legal pluralism proves a useful tool offering a challenging avenue for the examination of socio legal activities Too often however the literature on legal pluralism has failed to place sufficient emphasis on its fundamental theoretical questions The result of a seminar held in Cairo in December 1996 with contributions by sociologists anthropologists political scientists legal theoreticians and practising lawyers *Legal Pluralism in the Arab World* represents the first comprehensive examination of this phenomenon This collection of essays attempts to define the notion of legal pluralism from a sociological anthropological and theoretical perspective and highlights its connection with particular Arab societies and countries The work's unique features include a preface by John Griffiths one of the most significant voices in the formulation of the theory of legal pluralism a broad range of case studies demonstrating the diversity in formulations of the theory and a wide variety of approaches to the subject matter *Legal Pluralism in the Arab World* is the only work in existence which addresses the concept of legal pluralism in this particular part of the world in such a systematic manner These essays significantly enrich the current canon on legal pluralism and offer the reader a unique example of its richness and usefulness *BULLETIN TOME LIX*, 1977-05-05 TABLES DES MATIERES 1 Jovan Dordevic Le concept de retat et le systeme constitutionnel de la Yougoslavie 9 2 Dugan Calle Political economy of socialism as science 15 3 Dugan Nedeljkovic L acte revolutionnaire de Copernic dans revolution de notre conception moderne du monde 17 4 Andrija Lt Stojkovic Le liberalisme bourgeois d Urog Milankovic et le marxisme de Svetozar Markovic 19 5 reupux Hucap3x 1 1Me TI J111 C MapKOBWil B031V1ORCHOCTb 1103HOKONIHTe C51 c mapxcn3mom erne B POCCHki 21 6 Ljubica S jankovic Le Role de la Formule dans l Ethnochoréologie 25 7 Branislav Kojic Densité de l habitat degrés de dispersion indicateurs des distances et densité des agglomérations 27 8 Niko S Martinovic L auteur de la missive au Serdar Joie PiletiO 29 9 Obren Blagojevic Traces des conceptions économiques dans des manuscrits médiévaux serbes 31 10 Dus an Nedeljkovic Lenine la science du socialisme et les prévisions créatrices du XX^{eme} siècle 33 11 Eopuc 3uxepui artly Kgemle Jlemma or Mapxca 35 12 Radivoj

Fortnightly Review ,1876 **Intimate States** Margot Canaday,Nancy F. Cott,Robert O. Self,2021-09-06 Fourteen essays examine the unexpected relationships between government power and intimate life in the last 150 years of United States history The last few decades have seen a surge of historical scholarship that analyzes state power and expands our understanding of governmental authority and the ways we experience it At the same time studies of the history of intimate life marriage sexuality child rearing and family also have blossomed Yet these two literatures have not been considered together in a sustained way This book edited and introduced by three preeminent American historians aims to close this gap offering powerful analyses of the relationship between state power and intimate experience in the United States from the Civil War to the present The fourteen essays that make up Intimate States argue that intimate governance the binding of private daily experience to the apparatus of the state should be central to our understanding of modern American history Our personal experiences have been controlled and arranged by the state in ways we often don't even see the authors and editors argue correspondingly contemporary government has been profoundly shaped by its approaches and responses to the contours of intimate life and its power has become so deeply embedded into daily social life that it is largely indistinguishable from society itself Intimate States makes a persuasive case that the state is always with us even in our most seemingly private moments
