**The Complete Book of 1970s Broadway Musicals** Dan Dietz, 2015-09-03 The 1970s was an exciting decade for musical theatre. Besides shows from legends Stephen Sondheim Company Follies, A Little Night Music, and Sweeney Todd, and Andrew Lloyd Webber's Jesus Christ Superstar and Evita, old-fashioned musicals Annie and major revivals No, No, Nanette became hits. In addition to underappreciated shows like Over Here and cult musicals such as The Grass Harp and Mack and Mabel, Broadway audiences were entertained by black musicals on the order of The Wiz and Raisin. In *The Complete Book of 1970s Broadway Musicals*, Dan Dietz examines in detail every musical that opened on Broadway during the 1970s. In addition to including every hit and flop that debuted during the decade, this book highlights revivals and personal appearance revues with such performers as Tony Bennett, Lena Horne, Bette Midler, and Gilda Radner. Each entry includes the following information: Opening and closing dates, Plot summaries, Cast members, Number of performances, Names of all important personnel including writers, composers, directors, choreographers, producers, and musical directors, Musical numbers and the names of performers who introduced the songs, Production data including information about tryouts, Source material, Critical commentary, Tony awards and nominations, Details about London and other foreign productions. Besides separate entries for each production, the book offers numerous appendixes including a discography, filmography, and published scripts, as well as lists of Gilbert and Sullivan operettas, black-themed shows, and Jewish-themed productions. A treasure trove of information, *The Complete Book of 1970s Broadway Musicals* provides readers with a comprehensive view of each show. This significant resource will be of use to scholars, historians, and casual fans of one of the greatest decades in musical theatre history.

**The Best Plays**, 1981 Burns Mantle **Best Plays and the Year Book of the Drama in America**, 1983 **Theories, Models, and Practices of Literacy** Misty Sailors, Idalia Nuñez, Vaughn W. M. Watson, James V. Hoffman, Donna E. Alvermann, 2025-11-11 This eighth edition of *Theoretical Models and Processes of Literacy*, a foundational text in literacy research, is updated to represent a new era in contemporary and critical scholarship. With a revised name, the intentional inclusion of diverse perspectives, and new organizational structure, *Theories, Models, and Practices of Literacy* thoroughly represents the theories that drive literacy and the scholars who write about and within the field. While still representing the most comprehensive source for connecting theories to literacy research and practice, this eighth edition builds on preceding editions, contextualizing its historical roots, promoting and highlighting contemporary and critical theories, and envisioning future directions in literacy. This volume addresses theories across ten sections, including early youth and community literacies, teaching literacy and literacy teacher education, disabilities and disciplinary literacy theories, digital and multimodal literacies, and the disruption of colonial boundaries in language and global literacies. The chapters in this volume are curated to inspire the interrogation of literacy theory and foster its evolution. Additional archival essays from previous editions will remain available as Support Material on the book's webpage. New to the eighth edition: 80% new material and

significantly revised previous materials to reflect emerging and contemporary theories and scholarship A more globalized approach to theorizing literacy practices including those with onto epistemological perspectives rooted in people s lived experiences literacies and languages to engage scholars and audiences who may be new users of the text Focus on theories that actively challenge traditional theoretical literacy frames and raise critical consciousness toward communities marginalized by the white gaze historically represented in literacy theory literacy research and literacy education New avenues for readers to explore how theory informs practice practice informs theory and how both are taken up in various contexts e g classrooms schools communities and societies
