PLOTINUS Ennead V.1 On the Three Primary Levels of Reality Eric D Perl, 2015-12-23 Plotinus Treatise V 1 comes closer than any other to providing an outline of his entire spiritual and metaphysical system and as such it may serve to some degree as an introduction to his philosophy It addresses in condensed form a great many topics to which Plotinus elsewhere devotes extended discussion including the problem of the multiple self eternity and time the unity in duality of intellect and the intelligible and the derivation of intelligible being from the One Above all it shows that the so called three hypostases soul intellect and the One are best understood not as a sequence of three things additional to one another but as three levels of possession of the same content so that each lower level soul in relation to intellect and intellect in relation to the One is an image and expression of its superior Plotinus exhorts the human soul to overcome its alienation from its own true nature and its divine origin by first recognizing itself as superior to the body and the same in kind as the animating principle of the entire cosmos and then discovering within itself the still higher levels of reality from which it derives intellect and ultimately the One or Good the supreme first principle of all things To do so the soul must redirect its attention inward and upward to become aware of the divinity which is always within it but from which it is distracted by the clamor of the senses
