Racial Myth In English History

Hugh A. MacDougall

Racial Myth In English History:

Racial Myth in English History Hugh A. MacDougall, 1982 Myths of origin enable people to locate themselves in time and space They offer an explanation of the unknown and hallow traditions by linking them to heroic events and personages of the distant past In addition they form the ground for belief systems or ideologies which providing a moral validation for attitudes and activities bind men together in a society writes the author who in his interesting and solidly based short study synthesizes several generations of English and continental scholarship in a way that enables a broad readership to obtain a clearer recognition of those elements in accepted mythologies which both unite and divide men Published in English

Racial Myth in English History Hugh A. MacDougall, **English Ethnicity and Race in Early Modern Drama** Mary Floyd-Wilson, 2003-02-20 In English Ethnicity and Race in Early Modern Drama first published in 2003 Mary Floyd Wilson outlines what we might call scientific conceptions of racial and ethnic differences in sixteenth and seventeenth century English writing Drawing on classical and contemporary medical texts histories and cosmographies Floyd Wilson demonstrates that Renaissance understandings of racial and ethnic identities contradicted many modern stereotypes concerning difference Southerners Africans in particular were identified as dispassionate cool tempered and wise whereas the more northern English were understood to be unruly impressionable and slow witted Concerned with the unflattering and constraining implications of this classically derived knowledge English writers laboured to reinvent ethnology to their own advantage a labour that paved the way for the invention of more familiar racial ideas Floyd Wilson highlights these English revisionary efforts in her surprising and transformational readings of the period s drama including Marlowe s Tamburlaine Jonson s The Masque of Blackness and Shakespeare s Othello and Cymbeline *The Idea of English Ethnicity* Robert J. C. Young, 2007-12-03 The Idea of English Ethnicity Robert Young has written a compelling and thorough textual history of English ethnicity and its discursive relation to the history of racial theory Comprehensive carefully considered and clearly written this book sets the standard against which any future study of Englishness will be assessed The bar has been lifted a couple of notches higher David Theo Goldberg University of California What is Englishness Robert J C Young asks and in The Idea of English Ethnicityhe offers an impressively well researched and eminently readable answer Werner Sollors Harvard University **Exquisite Mixture** Wolfram Schmidgen, 2012-11-29 The culture of late seventeenth and early eighteenth century Britain is rarely credited with tolerance of diversity this period saw a rising pride in national identity the expansion of colonialism and glorification of the Anglo Saxon roots of the country Yet at the same time Wolfram Schmidgen observes the concept of mixture became a critical element of Britons belief in their own superiority While the scientific political and religious establishment of the early 1600s could not imagine that anything truly formed virtuous or durable could be produced by mixing unlike kinds or merging absolute forms intellectuals at the end of the century asserted that mixture could produce superior languages new species flawless ideas and resilient civil societies Exquisite Mixture examines

the writing of Robert Boyle John Locke Daniel Defoe and others who challenged the primacy of the one over the many the whole over the parts and form over matter Schmidgen traces the emergence of the valuation of mixture to the political and scientific revolutions of the seventeenth century The recurrent threat of absolutism in this period helped foster alliances within a broad range of writers and fields of inquiry from geography embryology and chemistry to political science and philosophy By retrieving early modern arguments for the civilizing effects of mixture Schmidgen invites us to rethink the stories we tell about the development of modern society Not merely the fruit of postmodernism the theorization and valuation of hybridity have their roots in centuries past

Broadening Jewish History Todd M. Endelman, 2010-12-01 Key themes and issues relevant to writing the social history of the Jews in the modern period are brought to the fore here in a way that is accessible both to professional historians and to educated readers with an interest in Jewish history Some of the articles are programmatic and argumentative others are case studies Together they create a strong coherent volume that demonstrates the advantages of the social historical perspective as a tool for interpreting the Jewish world

Shakespeare and the Jews James Shapiro, 2016-03-08 First published in 1996 James Shapiro's pathbreaking analysis of the portrayal of Jews in Elizabethan England challenged readers to recognize the significance of Jewish questions in Shakespeare's day From accounts of Christians masquerading as Jews to fantasies of settling foreign Jews in Ireland Shapiro's work delves deeply into the cultural insecurities of Elizabethans while illuminating Shakespeare's portrayal of Shylock in *The Merchant of Venice* In a new preface Shapiro reflects upon what he has learned about intolerance since the first publication of *Shakespeare and the Jews*

Political Aesthetics Karl Axelsson, 2019-08-22 Providing a gateway to a new history of modern aesthetics this book challenges conventional views of how art's significance developed in society The 18th century is often said to have involved a radical transformation in the concept of art from the understanding that it has a practical purpose to the modern belief that it is intrinsically valuable By exploring the ground between these notions of art's function Karl Axelsson reveals how scholars of culture made taste morals and a politically stable society integral to their claims about the experience of nature and art Focusing on writings by two of the most prolific men of letters in the 18th century Joseph Addison 1672-1719 and the third Earl of Shaftesbury 1671-1713 Axelsson contests the conviction that modern aesthetic autonomy reoriented the criticism and philosophy originally prompted by these two key figures in the history of aesthetics By re-examining the political relevance of Addison and Shaftesbury's theories of taste Axelsson shows that first and foremost they sought to fortify a natural link between aesthetic experience and modern political society

National Myths in Renaissance France R. E. Asher, 1993 It was the seventh century Chronicle of Fredegar which first gave the Franks a Trojan ancestry and the lineage stuck This fascinating new study shows how even as late as the sixteenth century historians and poets found the lure of the eponymic hero Francus the Glorious Druids and the Great Celtic Past irresistible It describes how obsessed with the origins of their country and the prevailing nationalism of the age early sixteenth century writers were largely uncritical of their highly

spurious sources even acknowledged forgeries such as those of Annius of Viterbo However a desire to replace fiction with fact gradually took hold as the Renaissance progressed and National Myths examines the reasons for this change of mood and discusses the emotional satisfaction afforded by a belief in the Trojan and Gallic legends With its topical themes of nationalism and the politicisation of history this book sheds new light on Renaissance historiography and on the history of ideas in general BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved *History and Social Intelligence* Harry Elmer Barnes,1926 The Making of the South African Past Christopher Saunders,1988-08-12 Over the past one hundred years a body of historical knowledge and writing has been built up which has sought to explain and describe the unique configuration of South African Society In the historical evolution of this society prominence and sometimes primacy have been variously accorded to the concepts of race and class This survey of the lives and works of the major historians of South Africa G M Theal W M Macmillan C W de Kiewiet Leonard Thompson Shula Marks and others examines the ways in which the South African past has been recreated and interpreted anew Contents Introduction 1 PART I 3 G M THEAL 1 A Canadian becomes South African 9 2 The making of a settler historian 18 3 Race and Class 30 4 Racial myths and Theal s legacy 36 PART 2 3 W M MACMILLAN AND C W DE KIEWIET 5 Macmillan the South African years and after 47 6 The revisionist historian 62 7 De Kiewiet from Johannesburg to America 76 8 The master historian 81 9 Race class and liberal history 95 PART 3 3 AMATEURS AND PROFESSIONALS 10 Early Africanist work 105 11 Walker and other historians of the 1930s and 1940s 12 Historians of the 1940s and 1950s 121 13 Early radical writing 131 PART 4 3 THE LIBERAL AFRICANISTS 14 The beginnings of liberal Africanism 143 15 The Oxford History 154 PART 5 3 THE RADICAL CHALLENGE 16 The challenge begins 165 17 Class and race structure and process 177 18 Changing perspectives 186 Conclusion 192 References 198 Select bibliography 219 Index 235 R *History*,1914 **Cultures in Contact** Dawn M. Hadley,J. D. Richards,2000 This volume examines the Scandinavian impact on England in the ninth and tenth centuries with particular reference to Scandinavian settlement and the diverse ways in which the Scandinavians and the native populations responded to each other Many previous studies have described the settlement as involving a rapid assimilation of the settlers with native society and culture and a swift process of integration This volume challenges that view and shows that the processes of assimilation integration and accommodation were gradual and complex displaying important regional variations Where did the Scandinavians come from What type of society did they eventually settle into What were the implications of the drawing of different cultures in contact and how is this portrayed in the surviving material An important aim of this volume is to open up new interdisciplinary dialogue in Viking Studies and it analyses documentary archaeological artefactual and linguistic evidence The volume also seeks to develop more theoretically sophisticated accounts of Scandinavian settlement and brings the study of this subject up to date in terms of developments in other branches of history archaeology and linguistics Recent discussion in other fields concerning for example material culture and language have shown that they

did not simply reflect changes in society but were also active constituent elements in creating and re creating social and cultural identities The volume focuses on the creation of local and regional identities and affinities and moves on from the traditional depiction of the issues in terms of a simple dichotomy of Scandinavian and English It takes a more rigorously contextual approach than has hitherto been the case in the study of Scandinavian settlement and seeks to throw new light on the consequences of cultures in contact *The Patriot Opposition to Walpole* Christine Gerrard,1994 This first full length study of the so called Patriot opposition to Walpole explores the interrelationship between patriotism politics and poetry between 1725 and 1742 Discusses Pope Bolingbroke Johnson Thomson Lyttleton West Mallet and Hill as well as the literature prints architecture and statuary of the 1730s **Canadian Review of Studies in Nationalism** ,1983

Lazamon's Brut and the Anglo-Norman Vision of History Kenneth Jack Tiller,2007 Lazamon s Brut is a 12th century historical poem that includes the first account of King Arthur in English as an alternative to Norman accounts of English history This study of the period puts Anglo Norman and Angevin historiography in the context of colonialist and post colonialist translation theory **The Politics of Tradition** Berit Åström,2002

The Welsh Language and Its Social Domains, 1801-1911 Geraint H. Jenkins,2000 This volume contains 22 chapters dealing with the status of the Welsh language in a wide range of social domains including agriculture and industry education religion politics law and culture

Tolkien, Race and Cultural History Dimitra Fimi,2009 Fimi explores the evolution of Tolkien s mythology throughout his lifetime by examining how it changed as a result of his life story and contemporary cultural and intellectual history This new approach and scope brings to light neglected aspects of Tolkien s imaginative vision and contextualizes his fiction

Canadiana ,1982

Reviewing **Racial Myth In English History**: Unlocking the Spellbinding Force of Linguistics
