Queerness in Heavy Metal Music Amber R. Clifford-Napoleone, 2015-03-24 While the growing field of scholarship on heavy metal music and its subcultures has produced excellent work on the sounds scenes and histories of heavy metal around the world few works have included a study of gender and sexuality This cutting edge volume focuses on queer fans performers and spaces within the heavy metal sphere and demonstrates the importance pervasiveness and subcultural significance of queerness to the heavy metal ethos Heavy metal scholarship has until recently focused almost solely on the roles of heterosexual hypermasculinity and hyperfemininity in fans and performers The dependence on that narrow dichotomy has limited heavy metal scholarship resulting in poorly critiqued discussions of gender and sexuality that serve only to underpin the popular imagining of heavy metal as violent homophobic and inherently masculine This book queers heavy metal studies bringing discussions of gender and sexuality in heavy metal out of that poorly theorized dichotomy In this interdisciplinary work the author connects new and existing scholarship with a strong ethnographic study of heavy metal s self identified queer performers and fans in their own words thus giving them a voice and offering an original and ground breaking addition to scholarship on popular music rock and queer studies

Drinking Dilemmas Thomas Thurnell-Read, 2015-12-14 Drinking and drunkenness have become a focal point for political and media debates to contest notions of responsibility discipline and risk yet at the same time academic studies have highlighted the positive aspects of drinking in relation to sociability belonging and identity These issues are at the heart of this volume which brings together the work of academics and researchers exploring social and cultural aspects of contemporary drinking practices These drinking practices are enormously varied and are spatially and culturally defined The contributions to the volume draw on research settings from across the UK and beyond to demonstrate both the complexity and diversity of drinking subjectivities and practices Across these examples

tensions relating to gender social class age and the life course are particularly prominent Rather than align to now long established moral discourses about what constitutes good and bad drinking sociological approaches to alcohol foreground the vivid lived nature of alcohol consumption and the associated experiences of drunkenness and intoxication In doing so the volume illuminates the controversial yet important social and cultural roles played by drink for individuals and groups across a range of social contexts

The Design of Care Craig Bremner, Paul A. Rodgers, Giovanni Innella, Justin Magee, 2025-11-28 This edited volume explores notions of care that are overlooked or neglected for one reason or another featuring projects that examine the most common forms of care mostly health and social care in a new light Chapters cover new ground from overlooked histories of care to caring for the future from economies and the commodification of care to equitable care from anarchic care to the choreography of care from proposing a policy for empathy to questioning whether design really needs empathy at all and much more The book shows that design is well situated to bring forward in theory and in practice a care of the possible in view of what can be prevented and in the same gesture of what can be invented about the future of care The book will be of interest to scholars working in product design service design information design sustainable design and user centred user experience design
