## **Racializing Class Classifying Race:**

*Racializing Class, Classifying Race* P. Alexander, R. Halpern, 1999-12-14 The ten essays in this book explore the intersection of race and class in the study of labour on three continents Leading scholars examine the way in which working class identities took shape and changed over time in a variety of settings from the sea ports of southern Africa to the copper mining region of the American Southwest

**Classifying race, racializing class** Fran Ansley, 1997 *Racializing Class, Classifying Race* Peter Alexander (Dr), Rick Halpern, 1999 The ten essays in this book explore the intersection of race and class in the study of labour on three continents Leading scholars examine the way in which working class identities took shape and changed over time in a variety of settings from the sea ports of southern Africa to the copper mining region of the American Southwest

**Racialization** Karim Murji, John Solomos, 2005 Racialization has become one of the central concepts in the study of race and racism It is widely used in both theoretical and empirical studies of racial situations There has been a proliferation of texts that use this notion in quite diverse ways It is used broadly to refer to ways of thinking about race as well as to institutional processes that give expression to forms of ethno racial categorization An important issue in the work of writers such as Robert Miles for example concerns the ways in which the construction of race is shaped historically and how the usage of that idea forms a basis for exclusionary practices The concept therefore refers both to cultural or political processes or situations where race is invoked as an explanation as well as to specific ideological practices in which race is deployed It is evident however that despite the increasing popularity of the concept of racialization there has been relatively little critical analysis exploring its theoretical and empirical usages It is with this underlying concern in mind that *Racialization Studies in Theory and Practice* brings together leading international scholars in the field of race and ethnicity in order to explore both the utility of the concept and its limitations

*George Padmore and Decolonization from Below* L. James, 2014-10-14 This book argues that the rising tide of anti colonialism after the 1930s should be considered a turning point not just in harnessing a new mood or feeling of unity but primarily as one that viewed empire racism and economic degradation as part of a system that fundamentally required the application of strategy to their destruction

**Racial Union** Julie Lavonne Novkov, 2009-09-11 In November 2001 the state of Alabama opened a referendum on its long standing constitutional prohibition against interracial marriage A bill on the state ballot offered the opportunity to relegate the state's antimiscegenation law to the dustbin of history The measure passed but the margin was alarmingly slim more than half a million voters 40 percent of those who went to the polls voted to retain a racist and constitutionally untenable law Julie Novkov's *Racial Union* explains how and why nearly forty years after the height of the civil rights movement Alabama struggled to repeal its prohibition against interracial marriage the last state in the Union to do so Novkov's compelling history of Alabama's battle over miscegenation shows how the fight shaped the meanings of race and state over ninety years Novkov's work tells us much about the sometimes parallel sometimes convergent evolution of our concepts of race and state

in the nation as a whole A remarkably nuanced account of interlocked struggles over race gender class and state power Novkov s site is Alabama but her insights are for all America Rogers M Smith Christopher H Browne Distinguished Professor of Political Science University of Pennsylvania Hannah Arendt shocked Americans in the 1950s by suggesting that interracial intimacy was the true measure of a society s racial order Julie Novkov s careful illuminating powerful book confirms Arendt s judgment By ruling on who may be sexually linked with whom Alabama s courts and legislators created a racial order and even a broad political order Novkov shows us just how it worked in all of its painful humiliating power Jennifer L Hochschild Henry LaBarre Jayne Professor of Government Professor of African and African American Studies and Harvard College Professor

**Labour and the politics of Empire** Neville Kirk,2017-02-01 This is a pathbreaking comparative and trans national study of the neglected influences of nation empire and race upon the development and electoral fortunes of the Labour Party in Britain and the Australian Labor Party from their formative years of the 1900s to the elections of 2010 Based upon extensive primary and secondary source based research in Britain and Australia over several years it makes a new and original contribution to the fields of labour imperial and British world history The book offers the challenging conclusion that the forces of nation empire and race exerted much greater influence upon Labour politics in both countries than suggested by traditionalists and revisionists alike The book will appeal to undergraduates postgraduates scholars in history and politics and all those interested in and concerned with the past present and future of Labour politics in Britain Australia and more generally

A David Montgomery Reader David W. Montgomery,2024-07-09 A foundational figure in modern labor history David Montgomery both redefined and reoriented the field This collection of Montgomery s most important published and unpublished articles and essays draws from the historian s entire five decade career Taken together the writings trace the development of Montgomery s distinct voice and approach while providing a crucial window into an era that changed the ways scholars and the public understood working people s place in American history Three overarching themes and methods emerge from these essays that class provided a rich reservoir of ideas and strategies for workers to build movements aimed at claiming their democratic rights that capital endured with the power to manage the contours of economic life and the capacities of the state but that workers repeatedly and creatively mounted challenges to the terms of life and work dictated by capital and that Montgomery s method grounded his gritty empiricism and the conceptual richness of his analysis in the intimate social relations of production and of community neighborhood and family life

**International Labor and Working Class History** ,2002

**Racializing California Society** Angela L. Stogner,2006 *Environment and Planning* ,2001 International interdisciplinary journal discussing the relations between Society and Space Space is broadly conceived from landscapes of the body to global geographies from cyberspace to old growth forests as metaphorical and material as theoretical construct and empirical fact Covers both practical politics and the abstractions of social theory

*U.C. Davis Law Review* University of California, Davis. School of Law,1999

**Health and Healing in Comparative Perspective**

Elizabeth Dixon Whitaker, 2006 This reader provides both fascinating comparative ethnographic detail and a theoretical framework for organizing and interpreting information about health While there are many health related fields represented in this book its core discipline is medical anthropology and its main focus is the comparative approach Cross cultural comparison gives anthropological analysis breadth while the evolutionary time scale gives it depth These two features have always been fundamental to anthropology and continue to distinguish it among the social sciences A third feature is the in depth knowledge of culture produced by anthropological methods such as participant observation involving long term presence in and research among a study population The first part of the book explores healing systems in different cultures the second and third provide a strong grounding in evolutionary and culture oriented analysis making clear the connections between biology and culture as they affect health the final part emphasizes case studies that apply the theoretical principles presented earlier to particular health topics For medical anthropology medical sociology public health nursing and medical training professionals

*Historical Studies in Industrial Relations*, 2005      **Labour History**, 1998      *Northern Identities*

Neville Kirk, 2000 This book will hold a general appeal for readers interested in the issue of social identity especially in its regional and local manifestations and engagements It will find a wide readership across the humanities and social sciences

Jacket      **Denver University Law Review**, 2000      *University of Colorado Law Review* University of Colorado. School of Law, 1997      **Current Law Index**, 1998      *Consensus Or Coercion?* Lawrence Black, 2001 Cultural Writing Political Science

CONSENSUS OR COERCION offers a new perspective on post war British history and the welfare state It examines the relationship between the people and the state in areas as diverse as race relations housing social services political activism television and the family Focusing upon the notion of social cohesion the book argues that the British state s ability to represent itself as the crucial factor in the maintenance of this social cohesion has been of paramount importance to the state s continued existence
