## Move Int Sb Pk:

**On the Move** Sue Boinski, Paul A. Garber, 2000-05-15 Getting from here to there may be simple for one individual but as any parent scout leader or CEO knows herding a whole troop in one direction is a lot more complicated. Who leads the group? Who decides where the group will travel and using what information? How do they accomplish these tasks? *On the Move* addresses these questions, examining the social, cognitive, and ecological processes that underlie patterns and strategies of group travel. Chapters discuss how factors such as group size, resource distribution, and availability, the costs of travel, predation, social cohesion, and cognitive skills affect how individuals as well as social groups exploit their environment. Most chapters focus on field studies of a wide range of human and nonhuman primate groups, from squirrel monkeys to Turkana pastoralists, but chapters covering group travel in hyenas, birds, dolphins, and bees provide a broad taxonomic perspective and offer new insights into comparative questions such as whether primates are unique in their ability to coordinate group-level activities. *International Books in Print*, 1995. Barbara Hopkinson, [Anonymus AC01401231], 1995. [Model Reduction and Coarse-Graining Approaches for Multiscale Phenomena](#) Alexander N. Gorban, Nikolas Kazantzis, I. G. Kevrekidis, Hans Christian Öttinger, Konstantinos Theodoropoulos, 2006-09-22 Model reduction and coarse graining are important in many areas of science and engineering. How does a system with many degrees of freedom become one with fewer? How can a reversible micro description be adapted to the dissipative macroscopic model? These crucial questions, as well as many other related problems, are discussed in this book. All contributions are by experts whose specialities span a wide range of fields within science and engineering. **Proceedings of the International Conference on Multimedia Computing and Systems**, 1999. [Diverse Narratives and Shared Beliefs](#) Soumya Awasthi, 2025-06-27 This book delves into the intricate tapestry of Deoband Islam in India, Pakistan, and Afghanistan. Challenging simplistic narratives, it unveils the nuanced reality of Deoband Islam, revealing a diverse range of perspectives within the movement. It illuminates the movement's historical, social, and philosophical dimensions. It explores the movement's relationship with societal transformation and communal identity and its impact on the geopolitical dynamics of South Asia. The book offers a distinctive perspective on the Deoband school of thought in Islam by systematically categorising it into three distinct regional variants, each reflecting the unique socio-political context of its environment. The focus is on the Deoband school of thought, a strand within Sunni Islam that adheres to the philosophical framework of Ashari Maturidi. Critically examining its teachings, it uncovers the complexities and contradictions that shape Deobandi thought, challenging popular assumptions and providing a fresh understanding. It also highlights the voices of Deobandi scholars and organisations who unequivocally denounce terrorism and actively work to counter radicalisation. Acknowledging their efforts, the book underscores the potential for dialogue and cooperation in promoting peace and understanding. With its comprehensive approach and thought-provoking analysis, this book is essential for scholars, policymakers, political science departments, theology, sociology, international relations, security studies, and South
