Missing & Presumed Dead Gale St. John, Diana Montane, 2014-08-08 Take a rare insider's look at a mysterious world most people have only seen on television. Join Gale St. John on her amazing journey as a psychic sleuth who has helped find missing persons from Ohio to Kathmandu with victims ranging from innocent young children to Mafia bosses. *Missing and Presumed Dead* shows you how Gale is able to tune in to a missing person, describing what she sees, hears, and feels to detect whether the individual is alive or not. Discover her extensive work with specially trained dogs that search for the missing. Experience high-profile cases including the ones where spirits help Gale save lives. Each extraordinary account from those that made national headlines to those that are still unsolved sheds light on the dramatic life of a psychic detective. Praise: The heart-pounding suspense will keep you turning pages, thinking you know the answers while realizing nothing is like it seems. Marta Sosa, producer and host of the online radio show *Missing in America*. *A Fresh Look at Psychoanalytic Technique* Fred Busch, 2021-08-23 This collection of selected papers explores psychoanalytic technique, exemplifying Fred Busch's singular contribution to this subject alongside the breadth and depth of his work. Covering key topics such as what is unique about psychoanalysis, interpretation, psychic truth, the role of memory, and the importance of the analyst's reveries, this book brings together the author's most important work on this subject for the first time. Taken as a whole, Busch's work has provided an updated Freudian model for a curative process through psychoanalysis, along with the techniques to accomplish this. Meticulous in providing the theoretical underpinnings for their conclusions, these essays depict how Busch, as a humanist, has continuously championed what in retrospect seems basic to psychoanalytic technique but which has not always been at the forefront of our thinking: the patient's capacity to hear, understand, and emotionally feel interventions. Presenting a deep appreciation for Freudian theory, this book also integrates the work of analysts from Europe and Latin America, which has been prevalent in his recent work. Comprehensive and clear, these works focus on clinical issues, providing numerous examples of work with patients, whilst also presenting concise explanations of the theoretical background. In giving new meaning to basic principles of technique and in reviving older methods with a new focus, *A Fresh Look at Psychoanalytic Technique* will be of great interest to psychoanalysts and psychoanalytically oriented psychotherapists. **Studies**, 1914. God's Journey Brett Rogers, 2012-10 God's journey starts by laying a conceptual foundation of creation and then discusses the steps it has taken in its evolution There is only one fundamental pattern creation finds a way of getting its parts to work together to create something that is more capable of observing and acting within creation ideally in a sustainable way Good examples of this are the trillions of cells that work together to create a human being and humans who work together to create schools businesses governments and economies Humans like other parts of creation can express this fundamental pattern to varying degrees of effectiveness Sometimes we work together to create something that contributes to the evolution of creation really well sometimes not so well and sometimes it takes away from it Learning to optimize our potential to contribute to our personal and collective evolution is the focus of this book I will discuss a progressive approach for enhancing our personal health and performance to enjoy and use as a foundation for enhancing our collective health and performance evolution Enlightenment is the most important process for both our personal and collective evolution The more aware we are the easier it is to make good decisions on how to act Academic pursuits are very important in this but so is developing our psychic abilities such as intuition There is much more to this reality than meets the eyes as you can learn within this book and much more
