Psychoanalysis Cult:

'Cult' Rhetoric in the 21st Century Aled Thomas, Edward Graham-Hyde, 2024-06-13 Examining contemporary understandings of the term cult this book brings together scholars from multiple disciplines including sociology anthropology and religious studies Focusing on how cult rhetoric affects our perceptions of new religious movements the contributors explore how these minority groups have developed and deconstruct the language we use to describe them Ranging from the Cult of Trump and Cult of COVID to the campaigns of mass media this book recognises that contemporary cult rhetoric has become hybridised and suggests a more nuanced study of contemporary religion Topics include online religions political cults apostate testimony and the current othered position of the study of minority religions **Christianity and Rabbinic Judaism** Jonas Alexis, 2013-01-10 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaires self appointed cheerleaders such as Diderot Helvitius dHolbach DAlembert Lametrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lametrie produced Man A Machine and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez linfme Rousseau of course was a disciple of Voltaire and declared that Voltaires work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross **Freud's Converts** Vicki Clifford, 2020-06-16 This work is an exploration of the relationship which psychotherapy has with religion Sigmund Freud and Carl Rogers were chosen for this exposition because they were each seduced by the high status given to science Freud and Rogers both founders of psychotherapies left a legacy which is not that of scientists whom they claimed they were Freud and Rogers each had a problematic relationship with religion This has had a lasting effect on the work and attitudes of their respective followers In order to explore effectively this

relationship the work begins with a critical examination of the historical context in which both Freud and Rogers worked and how in their determination to be scientists both missed the importance of the religious. The work continues with an exploration of the effects of this legacy on the work of contemporary psychotherapists. The context in which their followers work relies on a relationship with the founder which goes beyond that of science and in addition each practitioner is influenced by socio economic circumstances which are peculiar to them. The resistance from psychotherapists to embrace religion has been complex although as it will be illustrated today there are some who are acknowledging the importance of the spiritual. That psychotherapy functions as a religious movement has been excluded by practitioners in their determination to reflect the wishes of their founder which was that their work should be regarded as science. Psychotherapists have traditionally been considered the custodians of the real and that their clients are the ones suffering from delusions. With respect to their attitudes to religion not least the spiritual the positions seem to be reversed.
