

Marcus Wallenberg

**Patrick Vollmar**

## **Marcus Wallenberg:**

*Marcus Wallenberg* Torgny Torgnysson Segerstedt, Sven Rydberg, Robert Skole, 1982 *Safehaven* Martin Lorenz-Meyer, 2007 A detailed study of the development and collapse of the Safehaven Program initiated by the Federal Economic Administration advocated by Treasury Secretary Henry Morgenthau and reluctantly supported by Britain and France that focused on averting post World War II German aggression by investigating and confiscating German assets in neutral countries Provided by publisher *Neutrality's Empire* Per Högselius, David Nilsson, Hanna Vikström, 2025-10-01 Reconciling Sweden's reputation for political neutrality and scientific prestige alongside its involvement in extractivist colonial projects exposes uncomfortable overlaps between these seemingly disparate ventures In this illuminating reappraisal of the intersections between Swedish colonialism and its industrial history *Neutrality's Empire* explores how Swedish actors ranging from diplomats and business leaders to missionaries geologists and engineers leveraged Sweden's global standing to access valuable mineral resources across Africa and Asia In doing so this book presents a historical narrative which clarifies Sweden's entanglement with the forces of globalization colonialism and climate change **The Oxford Encyclopedia of Economic History** Joel Mokyr, 2003 What were the economic roots of modern industrialism Were labor unions ever effective in raising workers living standards Did high levels of taxation in the past normally lead to economic decline These and similar questions profoundly inform a wide range of intertwined social issues whose complexity scope and depth become fully evident in the Encyclopedia Due to the interdisciplinary nature of the field the Encyclopedia is divided not only by chronological and geographic boundaries but also by related subfields such as agricultural history demographic history business history and the histories of technology migration and transportation The articles all written and signed by international contributors include scholars from Europe Latin America Africa and Asia Covering economic history in all areas of the world and segments of economies from prehistoric times to the present *The Oxford Encyclopedia of Economic History* is the ideal resource for students economists and general readers offering a unique glimpse into this integral part of world history *Creating Nordic Capitalism* Susanna Fellman, Martin Jes Iversen, Hans Sjögren, Lars Thue, 2017-09-16 *Creating Nordic Capitalism* illuminates how the economies of five small North European countries Denmark Finland Norway Iceland and Sweden became so competitive during the twentieth century Through rigorous analysis the authors propose and describe the defining features of Nordic capitalism *Rethinking Corporate Governance* Sven-Erik Sjöstrand, 2016-05-27 *Rethinking Corporate Governance*'s extensive and insightful empirical investigation offers a radically new approach to corporate governance This ground breaking volume describes and analyzes the key nature based and actor based forces that ultimately determine corporate governance processes and long term corporate paths Generally such forces work in complex and intricate interplays that to a large extent vary among corporations A theory of shareholder governance is developed and integrated into the established and more comprehensive theory of corporate governance to create a revised theory of the

corporation firm The new possibilities that this creates for explaining how processes develop and ultimately influence corporate paths are presented in depth Featuring conclusions based on an empirical material that is both rich and exclusive the book also contains extensive non anonymized materials from authentic corporate governance processes A general conclusion is that actions taken by individuals have a special status among those forces as they not only generate impact in themselves but also involve interpretations of the possible effects of all the other forces Among those actions the ones taken by the shareholders stand out as particularly decisive both for the governance processes as such and for how corporations develop over time Offering a degree of openness detail and realism that is hard to find in any other case based study this innovative and enlightening volume is essential for both academics and practitioners involved in corporate governance corporate strategy and the theory of the firm
