National Security Enduring Problems Of Us Defense Policy:

National Security Donald M. Snow,1987 *The Arms Control, Disarmament, and Military Security Dictionary* Jeffrey M. Elliot,Robert Reginald,2007-09-01 This facsimile reprint of the 1989 edition is according to Library Journal a wonderfully concise and comprehensive resource on a very important topic In 268 detailed entries the authors provide a wealth of information on such topics as the arms race conventional and nuclear weapons nuclear strategy and disarmament The entries are cross referenced and there is an index Of great value to general readers as well as specialists **The U.S. Army in a New Security Era** Sam Charles Sarkesian,John Allen Williams,1990 Grappling with the constraints and opportunities the US Army faces in designing policy and strategic options for the post INF era the contributors to this book outline the current strategic posture of the army the challenges of the future and the steps needed to meet those challenges **U.S. National Security Policy and Strategy** Sam C. Sarkesian,Robert A. Vitas,1988-12-14 This work was designed to establish a sense of history and perspective for the study and teaching of national security It is also intended to bring a sense of balance to current debates on national security policy This is accomplished by presenting selected official U S documents covering the past thirty years a careful reading of which not only provides valuable insights into the policy process but also into the meaning of American values Rather than giving a comprehensive picture this volume is designed to portray the critical reference points in the periods and events examined and to identify the attitudes of the times The book primarily treats the period from 1950 to the mid 1980s although the first document examined is the National Security Act of 1947 The documents examined cover the national security establishment new defense policies such as counterinsurgency the events of the Vietnam War and its aftermath nuclear strategy the Reagan reassertion and congressional constraints on the executive branch of government A number of foreign and national security policy references were used as background and guides these are listed in the Select Bibliography *American National Security* Cecil V. Crabb (Jr.),Kevin V. Mulcahy,1991 This book should be of interest to supplementary text in political science courses Can America Remain Committed? David G. Haglund,2019-04-02 The twelve months that spanned the period between the early springtimes of 1991 and 1992 may well turn out to constitute the most important year for American foreign and security policy in half a century Encasing the dawning of a new and different security era like macabre parentheses were two columns of black smoke that of 1991 over the newly liberated Kuwait and that of 1992 over the embattled district of South Central Los Angeles Within these acrid temporal brackets unfolded a set of developments of utmost significance for American foreign and security policy and for the very meaning of the country s external commitments **Energy Abstracts for Policy Analysis** ,1988 American History and National Security ,1989 *Naval War College Review* ,1987 *Defending America's Security* Frederick H. Hartmann,Robert L. Wendzel,1990 Revised to take into account new geopolitical trends including the pre war stage of the US Iraq conflict as well as the latest changes in the US government this classroom oriented text examines US defense

policies in the broader arenas of national security and international affairs Annotation copyrighted by Book News Inc
 Portland OR **Naval War College Review** Naval War College (U.S.),1987 **Economics and National Security** Steve
 L. Miller,1989 Arms Control and Disarmament, Defense and Military, International Security, and Peace Stephen E.

 Edition, James Q. Wilson* Brian M. Murphy,1992 *US Defense Politics* Harvey M. Sapolsky,Eugene Gholz,Caitlin
 Talmadge,2020-12-30 This book provides an accessible overview of US defense politics for upper level students This new
 edition has been updated and revised with new material on the Trump Administration and Space Force Analyzing the ways in
 which the United States prepares for war the authors demonstrate how political and organizational interests determine US
 defense policy and warn against over emphasis on planning centralization and technocracy Focusing on the process of
 defense policy making rather than just the outcomes of that process US Defense Politics departs from the traditional style of
 many textbooks Designed to help students understand the practical side of American national security policy the book
 examines the following key themes US grand strategy the roles of the president and the Congress in controlling the military
 organizational interests and civil military relations who joins America s military what happens to veterans after wars how and
 why weapons are bought the management of defense and intra and inter service relations public attitudes toward the military
 homeland security and the intelligence community The fourth edition will be essential reading for students of US defense
 politics national security policy and homeland security and highly recommended for students of US foreign policy public
 policy and public administration **U.S. Defense Policy in an Era of Constrained Resources** Robert L.
