Ghostwriting Modernism Helen Sword,2018-05-31

Spiritualism is often dismissed by literary critics and historians as merely a Victorian fad Helen Sword demonstrates that it continued to flourish well into the twentieth century and seeks to explain why Literary modernism she maintains is replete with ghosts and spirits In Ghostwriting Modernism she explores spiritualism s striking persistence and what she calls the vexed relationship between mediumistic discourse and modernist literary aesthetics Sword begins with a brief historical review of popular spiritualism s roots in nineteenth century literary culture In subsequent chapters she discusses the forms of mediumship most closely allied with writing the forms of writing most closely allied with mediumship and the thematic and aesthetic alliances between popular spiritualism and modernist literature Finally she accounts for the recent proliferation of a spiritualist influenced vocabulary ghostliness hauntings the uncanny in the works of historians sociologists philosophers and especially literary critics and theorists Documenting the hitherto unexplored relationship between spiritualism and modern authors some credulous some skeptical Sword offers compelling readings of works by James Joyce T S Eliot W B

Yeats H D James Merrill Sylvia Plath and Ted Hughes Even as modernists mock spiritualism s ludicrous lingo and deride its metaphysical excesses she finds they are intrigued and attracted by its ontological shiftiness its blurring of the traditional divide between high culture and low culture and its self serving tendency to favor form over content medium so to speak over message Like modernism itself Sword asserts spiritualism embraces rather than eschews paradox providing an ideological space where conservative beliefs can coexist with radical even iconoclastic thought and action Private Dowding - Scholar's Choice Edition Mead and Dood,2015-02-08 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant **Gothic Fiction and the Writing of Trauma, 1914-1934** Andrew Smith,2022-02-15 This book examines how the representation of the ghost soldier in literature published between 1914 1934 both marks the presence of trauma and attempts to make sense of it Andrew Smith examines short stories novels poems and memoirs that employ ghosts to reflect upon feelings of loss paralleling the literary context with accounts of shell shock which construe the damaged soldier as psychologically missing and therefore spectre like The author argues that literary and non literary texts repeatedly deploy a form of the uncanny familiar from a Gothic tradition as a way of reflecting upon grief In support of this claim he draws on fiction by well known authors such as M R James E F Benson Dorothy L Sayers and Dennis Wheatley alongside largely forgotten contributions to The Strand and other periodical publications such as The Occult Review
