Music and Performance Culture in Nineteenth-Century Britain Bennett Zon, 2016-04-29 Music and Performance Culture in Nineteenth Century Britain: Essays in Honour of Nicholas Temperley is the first book to focus upon aspects of performance in the broader context of nineteenth century British musical culture. In four parts: Musical Cultures, Societies, National Music and Methods, this volume assesses the role music performance plays in articulating significant trends and currents of the cultural life of the period and includes articles on performance and individual instruments, orchestral and choral ensembles, church and synagogue music, music societies, cantatas, vocal albums, the middle class salon, conducting church music and piano pedagogy. An introduction explores Temperley's vast contribution to musicology, highlighting his seminal importance in creating the field of nineteenth century British music studies and a bibliography provides an up to date list of his publications including books and monographs, book chapters, journal articles, editions, reviews, critical editions, arrangements and compositions. Fittingly devoted to a significant element in Temperley's research, this book provides scholars of all nineteenth century musical topics the opportunity to explore the richness of Britain's musical history.

Theatre Censorship David Thomas, David Carlton, Anne Etienne, 2007-11-01 Using previously unpublished material from the National Archives, David Thomas, David Carlton and Anne Etienne provide a new perspective on British cultural history. Statutory censorship was first introduced in Britain by Sir Robert Walpole with his Licensing Act of 1737. Previously, theatre censorship was exercised under the Royal Prerogative. By giving the Lord Chamberlain statutory powers of theatre censorship, Walpole ensured that confusion over the relationship between the Royal Prerogative and statute law would prevent any serious challenge to theatre censorship in Parliament until the twentieth century. The authors place theatre censorship legislation and its attempted reform in their wider political context. Sections outlining the political history of key periods explain why theatre censorship legislation was introduced in 1737, why attempts to reform the legislation failed in 1832, 1909 and 1949, and finally succeeded in 1968. Opposition from Edward VII helped to prevent the abolition of theatre censorship in 1909. In 1968, theatre censorship was abolished despite opposition from Elizabeth II, Lord Cobbold, her Lord Chamberlain and Harold Wilson, her Prime Minister. There was strong support for theatre censorship on the part of

commercial theatre managers who saw censorship as offering protection from vexatious prosecution A policy of inertia and deliberate obfuscation on the part of Home Office officials helped to prevent the abolition of theatre censorship legislation until 1968 It was only when playwrights directors critics audiences and politicians notably Roy Jenkins applied combined pressure that theatre censorship was finally abolished The volume concludes by exploring whether new forms of covert censorship have replaced the statutory theatre censorship abolished with the 1968 Theatres Act
