Serious Fraud And Current Issues:

Serious Fraud and Current Issues Sally Ramage, 2005 Fraud is big business and it rots the fabric of finance and accountancy as it is exercised by all day trading of bonds junk bonds loans Twenty five years ago fraud was said to be rapidly expanding and manifests itself by shady deals fraudulently converted cash Fraudsters who are active especially electronic fraud do in fact treat the use of fraud as serious business and the execution of frauds as work much as other criminals treat their activities as their job Identity theft poses a frightening threat of being taken in by crooks If twenty five years ago it was estimated that the amount of fraudulent cash around the world at any one time more than equalled the Gross National Products of several third world countries it would not be believed a damning indictment indeed In this fascinating and comprehensive study on Fraud the author takes advantage of the fact that people seem thrilled to hear about frauds like murders She has prepared works that will use the reader's attention to discuss law enforcement and the consequences of breaking the law by committing frauds

Current Issues in Auditing Michael Sherer, Stuart Turley, 1997-05-28 The Third Edition of this successful text includes extensive changes based on feedback from students and lecturers There is a discussion of auditing and the law beyond the issue of third party liability and more coverage of recent developments in audit methodologies and techniques New chapters include a survey of developments in audit automation a discussion of the nature and development of the audit market both in the United Kingdom and the European Union and an assessment of the impact on auditing of the Cadbury Report on corporate governance with particular attention to the role of audit committees Each chapter includes questions for discussion

Privacy-Law of Civil Liberties Sally Ramage, 2007 The right to privacy or the right to private life is at the heart of individual freedom and the right to be free from arbitrary government interference The United Kingdom although part of the European Union has privacy issues unlike EU member states of Germany and France for example and yet the UK Press has much more freedom compared to the ordinary citizen This book published in 2007 follows on from the author's 2004 book titled Civil Liberties in England and Wales Privacy is a contemporary topic of law and some might even say the hottest civil liberties topic The UK government has before Parliament The Serious Crimes Bill 2007 one part of which will attempt to establish a super police database of all UK citizens information and another part of which will attempt to make the interrogation of business files on personnel a legal compulsion The UK government also has The Interception Of Communication As Evidence Bill 2007 before parliament It is therefore fitting that the subject of privacy is aired

Transforming Criminal Policy Andrew Rutherford, 1996 An unrivalled explanation of how criminal policy came to be formed in three states due to the enormous influence of three men James Q Wilson USA Dato Steenhuis The Netherlands and David Faulkner UK By one of the UK's leading analysts

Countering Economic Crime Axel Palmer, 2017-09-22 Economic crime is a significant feature of the UK's economic landscape and yet despite the government's bold mission statements to hold those suspected of financial wrongdoing to account as part of their day of reckoning and serious about

white collar crime agenda there is a sense that this is still not being done effectively This book examines the history of the creation of the UK s anti economic crime institutions and accompanying legislation providing a critique of their effectiveness The book analyses whether the recent regulatory regime is fit for purpose as well as being appropriate for the future In order to explore how the UK s economic crime strategies could be improved the book takes a comparative approach analysing policy and legislative responses to economic crime in the United States and Australia in order to determine whether the UK could or should import similar structures or laws to improve the enforcement of UK economic crime
