Paths to State Repression Christian Davenport,2000 This work seeks to improve our understanding of why states use political repression highlighting its relationship to dissent and mass protest The authors draw upon a variety of political economic contexts methodological approaches and geographic locales

**Secessionism and Separatism in Europe and Asia** Jean-Pierre Cabestan,Aleksandar Pavković,2013-01-03 The boundaries between secessionism and separatism are often blurred and in many cases study of secessionism encompasses that of separatism and vice versa Recognising this inherent relationship this book provides a comparative survey of recent attempts at secession and separatist movements from across Europe and Asia and assesses the responses of the respective host governments The essays address two main questions which arise from the relationship between state governments and secessionist movements first how secessionist or separatist movements gather support and mobilize their target populations and second how central political authorities respond to the challenges that secessionist or separatist movements pose to their capacity to control the country With political analysis of recent cases ranging from the Balkans the USSR the UK and the Basque Country to Sri Lanka Burma China Tibet and Taiwan the authors identify both similarities and differences in the processes and outcomes of secessionist and separatist movements across the two distinct regions This volume will be an invaluable resource for those who wish to understand the dynamics of secessionist movements and as such will appeal to students and scholars of Asian and European politics comparative politics international relations and conflict studies It will also be helpful to practitioners and policy makers who wish to understand and contribute to the resolution of such conflicts

**Conflict and Compliance** Sonia Cardenas,2011-03-18 International human rights pressure has been applied to numerous states with varying results In Conflict and Compliance Sonia Cardenas examines responses to such pressure and challenges conventional views of the reasons states do or do not comply with international law Data from disparate bodies of research suggest that more pressure to comply with human rights standards is not necessarily more effective and that international policies are more efficient when they target the root causes of state oppression Cardenas surveys a broad array of evidence to support these conclusions including Latin American cases that incorporate recent important declassified materials a statistical analysis of all the countries in the world and a set of secondary cases from Eastern Europe South Africa China and Cuba The views of human rights skeptics and optimists are surveyed to illustrate how state rhetoric and behavior can be interpreted differently depending on one's perspective Theoretically and methodologically sophisticated Conflict and Compliance paints a new picture of the complex dynamics at work when states face competing pressures to comply with and violate international human rights norms

whilst extra judicial executions save the need to go through the prolonged criminal justice system After a general overview of the role of the rule of law in a democratic society Bruce Baker provides five case studies that capture the current complex realities and their impact on the new democracies The citizen responses considered are vigilantes in East African pastoral economies The Bakassi Boys an anti crime group in Nigeria and private policing initiatives in South Africa The state responses are those of the Ugandan Defence Forces towards the Lords Resistance Army the Senegalese army towards the Casamance secessionists and the Mozambique Police response towards criminals [Ethnic Identity and National Conflict in China](#) Rohan Gunaratna,Arabinda Acharya,Wang Pengxin,W. Pengxin,2010-05-15 With links to the global jihad the indigenous insurgency and terrorism in Xinjiang challenges the security and stability of China This book examines the prevailing scholarship on ethnic and minority conflicts and argues that the root cause of the conflict in China especially in Xinjiang is not only about religious extremism but also about the systematic violation of basic rights and insensitivity towards minority identities by the state As our analysis demonstrates the Islamist terrorist threat to China is manifestly clear and not ambiguous However Beijing needs to develop an appropriate counter terrorism posture that is transparent legitimate and fair and addresses the concerns of the international community **Protest and Repression in Latin America** Chris Lee,2001 **Political Research Quarterly** ,2002 *Terrorism* Annamarie Oliverio,Pat Lauderdale,2005 This volume presents critical perspectives on the lives of people struggling for self determination equality and freedom Under what conditions are deviant or violent actions perceived or labeled as terrorism as opposed to war revolution or protest In this volume leading international scholars on terrorism provide thoughtful comprehensive responses and innovative ideas in analyzing terrorism in the twenty first century *G.K.
