The Joys and Challenges of Raising a Gifted Child Susan K. Golant, 1991

Minority and Mainstream Children's Development and Academic Achievement Virginia Gonzalez, 2007-06-20 Presently school populations represent a culturally and linguistically diverse student body Students are put at risk of failure in the school environment due to

overlooked developmental factors and external socio historical factors Due to this shift in diversification non traditional educational needs must be recognized This work offers a comparative and alternative framework for students and faculty to address this contemporary challenge It presents a unique state of the art ecological and multidimensional view of the differential effect of socio cultural and socioeconomic factors on the development of both minority and majority students The database studies illustrate methodological advances in the field of ethnic research and provide solutions for traditional methodological problems *Handbook of Gifted Education* Nicholas Colangelo, Gary A. Davis, 1997 Forty four chapters by educational and psychiatric experts examine important challenges and developments in gifted education The book discusses a variety of curriculum and instructional models that foster academic and creative growth including acceleration and enrichment programs It also explores Handbook of Parenting Marc H. Bornstein, 1995 V 1 Children and parenting v 2 Biology and ecology of parenting v 3 Status and social conditions of parenting v 4 Applied and practical parenting

Children's Discovery of the Active Mind Bradford H. Pillow, 2011-11-23 During the past 25 years a great deal of research and theory has addressed the development of young children s understanding of mental states such as knowledge beliefs desires intentions and emotions Although developments in children s understanding of the mind subsequent to early childhood has received less attention in recent years a growing body of research has emerged examining understanding of psychological functioning during middle and late childhood Combined with the literature on adolescent epistemological development this research provides a broader picture of age related changes in children s understanding of the mind Guided by the goals of describing developmental changes in children s concepts of cognitive functioning and identifying sources of information that contribute to learning about cognition Children s Discovery of the Active Mind organizes empirical literature concerning the development of children s knowledge of cognitive activities from early childhood to adolescence and presents a conceptual framework that integrates children s introspective activities with social influences on development Bringing together theoretical and empirical work from developmental cognitive and social psychology the author argues that rather than depending upon a single source of information developmental progress is driven by combinations of children s conceptual knowledge of mental functioning children s phenomenological awareness of their own cognitive activities and children s social experience
