

Where to start with Nietzsche?

A guide to philosophizing with a hammer

Where to start before starting?

Not required reading by any means but at least getting a cursory overview of Nietzsche's most important influences will certainly give you a much deeper understanding of his work.

Start Here

A solid little book. It was intended by a older Nietzsche to be a summary or primer for his more ideas. Either read this first or skip it entirely.

As Nietzsche's earliest work it lays the groundwork for a lot of what he will refine and extrapolate on later. While not absolutely necessary it offers a lot of insight into key points that are referenced but not reiterated in his later works. You will not really "get" Nietzsche without this book.

Start with either it really doesn't matter. The book was the first work and in the book was intended to be a summary or primer for his more ideas. Either read this first or skip it entirely.

Here Nietzsche offers his most explicit and direct attack against Christ and Christianity. One of Nietzsche's easier texts.

A very interesting essay and the closest Nietzsche gets to an epistemology. If you're used to more traditional philosophy then this will likely be a book for you.

Though chronologically one of his earlier works it is better understood through the lens of his main work. Nietzsche offers his views on the modern world and modern culture more here than anywhere else.

An early and unfinished work. It offers fascinating look at the pre-socratic philosophers that are usually brushed aside in philosophy 101 to make room for the big three. Here Nietzsche takes their ideas seriously as pre-logical but without metaphysical arguments.

A fact autobiography offering a number of aphoristic self-reflections. One of Nietzsche's last books in which he looks back and comments on all his previous work.

The icing on the cake. If you made it this far, dig in.

On Reading Nietzsche (Classic Reprint) Emile Faguet, 2015-09-27 Excerpt from *On Reading Nietzsche* Nietzsche found in Emile Faguet one of his most qualified critics It takes a French critic to display the wares of even the clearest of Teutonic philosophers Nietzsche was a clear honest even in his errors merciless thinker Emile Faguet without Nietzsches depth of creative and imaginative power was nevertheless as clear and honest a thinker and to be sure as merciless The catholic taste of the French their disregard of shams and that chivalrous instinct which prompts them while jealously preserving their individuality as a nation to recognize
