Memory Of The Modern:

Memory before Modernity Erika Kuijpers, Judith Pollmann, Johannes Mueller, Jasper van der Steen, 2013-12-05 This volume examines the practice of memory in early modern Europe showing that this was already a multimedia affair with many political uses and affecting people at all levels of society many pre modern memory practices persist until today

Gender, Place, and Memory in the Modern Jewish Experience Tova Cohen, 2003 This book is an expression of how the different memories of different gendered experiences affected the Jewish attitudes towards modernity Focusing on three geographical centers pre war and wartime Europe the United States and Israel the fifteen articles provide a backdrop to understanding the variation of Jewish life and identity *Memory in Early Modern Europe, 1500-1800* Judith Pollmann, 2017

For early modern Europeans the past was a measure of most things good and bad For that reason it was also hotly contested manipulated and far too important to be left to historians alone *Memory in Early Modern Europe* offers a lively and accessible introduction to the many ways in which Europeans engaged with the past and practised memory in the three centuries between 1500 and 1800 From childhood memories and local customs to war traumas and peacekeeping it analyses how Europeans tried to control mobilize and reconfigure memories of the past Challenging the long standing view that memory cultures transformed around 1800 it argues for the continued relevance of early modern memory practices in modern societies *The Memory of the Modern* Matt K. Matsuda, 1996

A multidisciplinary work *Memory of the Modern* examines stock markets tango dancers vagabond murderers neurology monument destruction and colonial policies to document how individuals and institutions shaped memory in the late nineteenth and early twentieth centuries The book studies these diverse memory sites to show how memory and history are fought over shaped and put to personal and ideological use **Modern Erasures** Pierre Fuller, 2022-04-07

Modern Erasures is an ambitious and innovative study of the acts of epistemic violence behind China's transformation from a semicolonized republic to a Communist state over the twentieth century Pierre Fuller charts the pedigree of Maoist thought and practice between the May Fourth movement of 1919 and the peak of the Cultural Revolution in 1969 to shed light on the relationship between epistemic and physical violence book burning and bloodletting during China's revolutions Focusing on communities in remote Gansu province and the wider region over half a century Fuller argues that in order to justify the human cost of revolution and the building of the national party state a form of revolutionary memory developed in China on the nature of social relations and civic affairs in the recent past Through careful analysis of intellectual and cultural responses to and memories of earthquakes famine and other disaster events in China this book shows how the Maoist evocation of the old society earmarked for destruction was only the most extreme phase of a transnational colonial era conversation on the backwardness of rural communities

the role of memory in the building of a new national identity in reunified Germany The author maintains that the contentious debates surrounding contemporary monuments to the Nazi past testify to the ambiguity of German memory and the continued link of Nazism with contemporary German national identity The book discusses how certain monuments and the ways Germans have viewed them contribute to the different ways Germans have dealt with the past and how they continue to deal with it as one country Kattago concludes that West Germans have internalized their Nazi past as a normative orientation for the democratic culture of West Germany while East Germans have universalized Nazism and the Holocaust transforming it into an abstraction in which the Jewish question is down played In order to form a new collective memory the author argues that unified Germany must contend with these conflicting views of the past incorporating certain aspects of both views Providing a topography of East West and unified German memory during the 1980s and the 1990s this work contributes to a better understanding of contemporary national identity and society The author shows how public debate over such issues at Ronald Reagan s visit to Bitburg the renarration of Buchenwald as Nazi and Soviet internment camp the Goldhagen controversy and the Holocaust Memorial debate in Berlin contribute to the complexities surrounding the way Germans see themselves their relationship to the past and their future identity as a nation In a careful analysis the author shows how the past was used and abused by both the East and the West in the 1980s and how these approaches merged in the 1990s This interesting new work takes a sociological approach to the role of memory in forging a new integrative national identity
