Memory And Totalitarianism:

Memory and Totalitarianism Luisa Passerini, 2017-10-06 Understanding Europe's past became an urgent matter with the events of August 1991 in Moscow in the former Soviet Union. The invasion of Moscow's streets by Russian people rejecting an attempted coup d'état was the culmination of a process that had been initiated years before and raised crucial questions. To what extent can these events be considered the end of an era stretching from World War I to the 1980s when Europe experienced many forms of dictatorship? To what extent can the various forms of dictatorship Europe experienced in the twentieth century be grouped together? Can any sort of affinity be established between them? The new introduction to the paperback edition of this volume in the Memory and Narrative series Leydesdorff and Crownshaw underline the fundamental importance of the struggle for memory and its meaning. *Memory and Totalitarianism* explores the remembered experiences of individuals living under different totalitarian regimes and examines the construction of memory in the aftermath of those regimes' collapse. It attempts to situate the findings of oral history in the context of contemporary memory. It wrestles with the most painful memories that Europeans have of this century at the end of the Cold War. These memories compare with oral history's research into such experiences as racist attitudes against blacks in the South or the cultural and psychological effects of apartheid in South Africa or the Aborigines' claim to their own history and to a new idea of history in Australia. Totalitarianisms are products of the twentieth century that go far beyond earlier manifestations of absolutism and autocracy in their effort to completely control political, social, and intellectual life. They were made possible by modern industrialism and technology. Therefore, the theme of the book expands to include many other experiences that relate to totalitarian mentalities.

Memory and the Impact of Political Transformation in Public Space Daniel J. Walkowitz, Lisa Maya Knauer, 2004-11-30 Memory and the Impact of Political Transformation in Public Space explores the effects of major upheavals wars decolonization and other social and economic changes on the ways in which public histories are presented around the world Examining issues related to public memory in twelve countries the histories collected here cut across political cultural and geographic divisions At the same time by revealing recurring themes and concerns they show how basic issues of history and memory transcend specific sites and moments in time A number of the essays look at contests over public memory following two major political transformations the wave of liberation from colonial rule in much of Africa Asia and Central and South America during the second half of the twentieth century and the reorganization of Eastern Europe and the former Soviet bloc beginning in the late 1980s This collection expands the scope of what is considered public history by pointing to silences and absences that are as telling as museums and memorials Contributors remind us that for every monument that is erected others including one celebrating Sri Lanka s independence and another honoring the Unknown Russian Soldier of World War II remain on the drawing board While some sites seem woefully underserved by a lack of public memorials as do post Pinochet Chile and post civil war El Salvador others run the risk of diluting meaning through overexposure as may be happening with Israel s Masada Essayists examine public history as it is conveyed not only in marble and stone but also through cityscapes and performances such as popular songs and parades Contributors James Carter John Czaplicka Kanishka Goonewardena Lisa Maya Knauer Anna Krylova Teresa Meade Bill Nasson Mary Nolan Cynthia Paces Andrew Ross Daniel Seltz T M Scruggs Irina Carlota Silber Daniel J Walkowitz Yael Zerubavel
