Robert Alan Mowbray Stevenson

Meninas Las:

Las Meninas Gabriele Finaldi, 2006 *Las Meninas The Maids of Honour* is more than a portrait or even a portrait of a portraitist at work Velazquez was always concerned about his status at court he thus includes the king and the queen in this painting both reflected in a mirror and present as witnesses to the painter in creative flow The figures in the picture seem caught between one position and the next with the snapshot effect that the Impressionists and Degas were to seek 200 years later Other painters tried to match or improve the extraordinary illusion of space in the picture But Velazquez's skill in achieving this was already apparent in earlier works The painting is an example of the power of art to communicate what is real and to imagine what by nature is unreal This superb 4 fold guide examines in detail the work's historical context and unravels the many levels of meaning contained within it

Las Meninas Antonio Buero Vallejo, 1987 Translation of Buero Vallejo's play that draws on the painting of the same name by Diego Velazquez *Velazquez* Albert Frederick Calvert, Catherine Gasquoine Hartley, 1908

Picture Theory W. J. T. Renaissance and Baroque Art Leo Steinberg, 2021-02 Leo Steinberg was one of the most original art historians of the twentieth century known for taking interpretive risks that challenged the profession by overturning reigning orthodoxies In essays and lectures ranging from old masters to contemporary art he combined scholarly erudition with an eloquent prose that illuminated his subject and a credo that privileged the visual evidence of the image over the literature written about it His writings sometimes provocative and controversial remain vital and influential reading Steinberg's perceptions evolved from long hard looking at his objects of study Almost everything he wrote included passages of formal analysis but always put into the service of interpretation This volume begins and ends with thematic essays on two fundamental precepts of Steinberg's art history how dependence on textual authority mutes the visual truths of images and why artists routinely copy or adapt earlier artworks In between are fourteen chapters on masterpieces of renaissance and baroque art with bold and enlightening interpretations of works by Mantegna Filippo Lippi Pontormo El Greco Caravaggio Steen and finally Velázquez Four chapters are devoted to some of Velázquez's best known paintings ending with the famously enigmatic *Las Meninas* Renaissance and Baroque Art is the third volume in a series that presents Steinberg's writings selected and edited by his longtime associate Sheila Schwartz

Anthropology as Ethics T. M. S. Evens, 2009 Anthropology as Ethics is concerned with rethinking anthropology by rethinking the nature of reality It develops the ontological implications of a defining thesis of the Manchester School that all social orders exhibit basically conflicting underlying principles Drawing especially on Continental social thought including Wittgenstein Merleau Ponty Levinas Dumont Bourdieu and others and on pre modern sources such as the Hebrew bible the Nuer the Dinka and the Azande the book mounts a radical study of the ontology of self and other in relation to dualism and nondualism It demonstrates how the self other dichotomy disguises fundamental ambiguity or nondualism thus obscuring the essentially ethical dilemmatic and sacrificial nature of all social life It also proposes a reason other than dualist nihilist and instrumental one in which logic is seen as both inimical to and continuous with value Without embracing absolutism the book makes ambiguity and paradox the foundation of an ethical response to the pervasive anti foundationalism of much postmodern thought
