Developments and Social Problems Herbert M. Lefcourt, 2013-09-24 Research with the Locus of Control Construct Volume 2 Developments and Social Problems seeks to contribute towards explaining the nomological network in which the locus of control construct is embedded In studying the antecedents concomitants and far reaching ramifications of the construct we can come to see its meaning more clearly The book is organized into three parts Part I pertains to one realm of locus of control research that is of signal interest to psychologists concerned with personality research and theory If locus of control is an important predictor of behavior then we should know something about its origins and the role it plays at different stages of the life span The chapters in the first part aid in the development of such a life span approach to locus of control research Part II focuses on applications to two clinical social problems marital instability and alcoholism Part III explores the use of locus of control as a moderator variable Here the response to particular situational constraints or milieu characteristics is evaluated vis vis status on locus of control variables In this way it becomes possible to speak of the specific effects of therapy or educational procedures upon persons who vary in personality characteristics such as locus of control in much the way that the advocates of interactionism have always advised

The Developmental Psychology of Planning Sarah L. Friedman, Ellin Kofsky Scholnick, 2014-02-25 Planning is defined as formulating an organized method for action in advance Although people do not plan all the time and planning does not occur in every situation planning skill is central to all human behavior There are developmental differences in planning skill and in the motivation to plan Even among adults variations in the engagement in the planning process are affected by individual attitudes beliefs and goals Planning also has a different meaning at various junctures in one s life Yet despite the amount of research on planning many of the studies have focused only on the cognitive processes that enable mature individuals to plan A continued exploration of the developmental course of planning this text attempts to situate cognitive aspects of planning in the context of the social and cultural environment and other psychological processes Bringing together the contributions of developmental organizational and social psychologists it explains how when and why we plan Finally it addresses various issues that pertain to the different aspects of planning from formal problem solving to handling the demands of everyday life

Measures of Personality and Social Psychological Attitudes John P. Robinson, Phillip R. Shaver, Lawrence S. Wrightsman, 2013-10-22 Measures of Personality and Social Psychological Attitudes Volume 1 in Measures of Social Psychological Attitudes Series provides a comprehensive guide to the most promising and useful measures of important social science concepts This book is divided into 12 chapters and begins with a description of the Measures of Personality and Social Psychological Attitudes Project s background and the major criteria for scale construction The subsequent chapters review measures of response set the scales dealing with the most general affective states including life satisfaction and happiness and the measured of self esteem These topics are followed by discussions of measures of social anxiety which is conceived a major inhibitor of social

Advances in Experimental Social Psychology, 1987-11-05 *Advances in Experimental Social Psychology* Perceived Control, Motivation, & Coping Ellen A. Skinner, 1995-02-08 At every point in the lifespan individual differences in a sense of control are strong predictors of motivation coping and success and failure in a wide range of domains What are the origins of these individual differences how do they develop and what are the mechanisms by which they exert such an influence on psychological functioning To answer these questions this book draws on theories and research covering key control constructs including self efficacy learned helplessness locus of control and attribution theory Skinner also considers such issues as the origins of control in social interaction environmental features that promote or undermine control developmental change in the mechanisms by which experience

Toward a Dual-dimensional Locus of Control Thomas Fredrich Miller, 1996 **Canadian Journal of Behavioural Science**, 1988 Research with the locus of control construct. 2. Developments and social problems Herbert M. Lefcourt, 1983 Individual Differences and the Development of Perceived Control Ellen A. Skinner, Melanie J. Zimmer-Gembeck, James P. Connell, 1998 One of the strongest predictors of children s school performance are individual differences in perceived control those beliefs about how effective the self can be in producing desired outcomes Drawing perspectives from both developmental and individual differences research this longitudinal study documents the cycles in which children who develop optimal profiles of control are more actively engaged and have better academic success or in contrast how children may doubt their capacities experience lower scholastic achievement and believe in the power of luck or unknown forces Further the results show how these cycles may change with age and suggest ways to improve children s perceived control

The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a exceptional and thrilling novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
