Sound Judgment Richard Leppert, 2023-05-31 The essays in *Sound Judgment* span the full career of Richard Leppert from his earliest to work that appears here for the first time on subjects drawn from early modernity to the present concerning music both popular and classical European and North American Noted for his path breaking interdisciplinary scholarship on music and visual culture the collection includes key essays on music s visualization in art practices in virtually all visual media including film The fourteen essays comprising this volume demonstrate Leppert s many contributions to critical musicology particularly in the areas of aesthetics as well as social and intellectual history all of it grounded in a heterodox body of critical and cultural theory with the work of Theodor W Adorno particularly noteworthy The collection is preceded by an introduction in which Leppert traces his intellectual development defined in large part by the social cultural and political upheavals of the 1960s and their aftermath both in the academy and in society at large **Women in Music** Karin Pendle, Melinda Boyd, 2012-07-26 *Women in Music A Research and Information Guide* is an annotated bibliography emerging from more than twenty five years of feminist scholarship on music This book testifies to the great variety of

subjects and approaches represented in over two decades of published writings on women their work and the important roles that feminist outlooks have played in formerly male oriented academic scholarship or journalistic musings on women and music

Musicological Identities Jacqueline Warwick,2017-07-05 No music scholar has made as profound an impact on contemporary thought as Susan McClary a central figure in what has been termed the new musicology In this volume seventeen distinguished scholars pay tribute to her work with essays addressing three approaches to music that have characterized her own writings reassessing music s role in identity formation particularly regarding gender sexuality and race exploring music s capacity to define and regulate perceptions and experiences of time and advancing new modes of analysis more appropriate to those aspects and modes of musicking ignored by traditional methods Contributors include in overlapping categories many fellow pioneers current colleagues and former students and their essays like McClary s own work address a wide range of repertoires ranging from the established canon to a variety of popular genres The collection represents the generational arrival of the new musicology into full maturity dividing fairly evenly between pre eminent scholars of music and a group of younger scholars who have already made their mark in significant ways But the collection is also and fundamentally interdisciplinary in nature in active conversation with such fields as history anthropology philosophy aesthetics media studies film music studies dramatic criticism women s studies and cultural studies

Subject Guide to Books in Print ,1991 **Notes** Music Library Association,2000 **The Selling Sound** Diane Elisabeth Pecknold,2002 Analyses of popular culture have tended to treat the relationship between culture industries and their audiences in one of two ways Frankfurt School critics

present an image of the audience as passive dupes of a manipulative commercial system concerned only with profits More recent cultural studies theorists have proposed instead that consumers of commercial popular culture are powerful agents who turn ideologically hostile texts to their own ends Neither approach adequately addresses consumers own perceptions of their relationship to culture industries or the possible cultural meanings of commercial institutions themselves This study examines the institutional development of one popular culture industry the country music business and the ways audiences responded to that development Using letters to radio stations and magazines as well as portrayals of country music in the mainstream press it emphasizes the meanings that listeners and cultural critics attached to the business of country music rather than focusing on interaction with specific stars or songs Trade papers oral histories and professional association records allow for a reconstruction of the concerns of country professionals as they worked to carve out institutional space within the larger music industry and establish their own respectability Evidence yielded by these materials suggests that commercialism is a complex cultural text the meanings and rhetorical uses of which have changed over time The narrative begins in the 1920s when changes in technology and the economics of popular music made it rural vernacular music a commercial product Three chapters explore the development of the country music business from a disconnected series of radio barn dances and live performance circuits to a centralized system of national production located in Nashville and represented by the Country Music Association Alternating with these are three chapters that outline audience and critical responses to the changing commercial structures that delivered country music The commercialism of country music became a defining feature of the genre for social scientists folk preservationists politicians and country listeners as well as for professionals in the country business
