## **Microcomputers And The Private Practitioner:**

*Microcomputers and the Private Practitioner* Robert M. Pressman, 1984-01-01      **The Handbook of Microcomputer Applications in Communication Disorders** Arthur H. Schwartz, 1984      Microcomputer User's Handbook Dennis Longley, Michael Shain, 1983-06-18      **Microcomputers and Your Practice** Jack Valancy, 1985      *Bowker's Complete Sourcebook of Personal Computing, 1985* R.R. Bowker Company, 1984 Provides Listings of Hardware Software Peripherals Currently Available as Well as Books Magazines Clubs User Groups Virtually All Other Microcomputer related Services Includes Background Information Glossary      **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70      *National Library of Medicine Current Catalog* National Library of Medicine (U.S.), 1985      **Choice**, 1984      **Personal Computers and the Family** Marvin B. Sussman, 1985 A pioneering volume that explores the new phenomenon of the personal computer and its impact on the family Family theorists express queries and concerns about the significance of the personal computer upon the organization values ideologies and behavioral practices of family systems The rich selection of ideas discussed in this groundbreaking book include the impact of computers on family dynamics and development the family's response to this new technology the potential benefits or harm to marital parent child relationships and quality of family life the use of microcomputers in family therapeutic processes and the role of personal computers in the delivery of services to families      Computers in Psychiatry/psychology, 1986      *Computers and Other Technological Aids for Psychiatric Private Practice* Jonathan D. Lieff, 1984      **Microcomputers and Clinical Psychology** Alastair Ager, 1991-10-24 The application of microcomputers to clinical psychology has existed from the beginning of its introduction in the early 1980 s Examines the field today as well as its future directions Topics include selection and support of microcomputer systems computer assisted psychometric neuropsychological and psychological problem assessment computer based psychological treatment and cognitive rehabilitation applications with children and people with learning difficulties monitoring and evaluating clinical service delivery expert systems and psychological aspects of the new technological age      **The Burgess Directory**, 1985      American Book Publishing Record, 1987      *An Introduction to Microcomputers in Speech, Language, and Hearing* Jack F. Curtis, 1987      **Medical and Health Care Books and Serials in Print**, 1986      Medical Management and Computing American Association for Medical Systems and Informatics. Conference, 1983      *Innovations in Clinical Practice* Peter A. Keller, Lawrence G. Ritt, 1982 Abstract This volume of Innovations in clinical practice A 21st century sourcebook is organized into five sections that reflect the diversity of contributions to the series The first section Clinical Issues and Applications deals primarily with therapeutic concerns The various contributions however go beyond traditional therapeutic issues and also address important questions of assessment as well as treatment Issues that relate to a number of different types of clients and situations are covered The second section addresses Practice Management and Professional Development This section is included because of the increasing number of

clinicians who work independently and require a source of information on practice management ethical concerns and professional development issues We remain in a period of dramatic changes that affect the nature of our practices New risks as well as opportunities are constantly emerging in this era of health care reform In this section we try to address relevant issues that we believe will be of interest to our readers Some of our discussions here also should be of interest to students and clinicians who practice in organizations or agencies The third section includes Assessment Instruments and Client Handouts The assessment instruments are primarily informal and designed to assist clinicians in collecting information about clients Our goal is to publish screening instruments and forms that aid in the organization of data rather than the making of formal inferences There are some exceptions to this rule however we believe all fall within the bounds of accepted professional practice in the format in which they are presented The materials presented here should be useful to psychologists and other professionals with minimal potential for misuse We assume that readers will be thoroughly familiar with any disorders or processes that they attempt to evaluate and readers are advised to carefully review the introductory materials that accompany contributions to this section We also have included in this section two handouts for use with your clients The fourth section on Community Interventions reflects our view that mental health practitioners have much to offer in the community beyond traditional clinical services We trust that the material in this section will be of assistance to those who are interested in mental health consultation education prevention and expanding their services to reach new and broader populations The fifth section Selected Topics includes a variety of contributions that do not fit neatly into one of the other sections
