

Next Generation Case Management

Leveraging

Pentaho+, Tapestry and Duality

For government agencies, effective investigative case management requires a flexible, scalable, and secure platform with advanced data analytics to detect, prevent, and investigate activities that threaten program integrity. Our solution streamlines the investigative process by automating the input and analysis of diverse data sources, including financial transactions, procurement records, digital evidence, and open-source information.

By identifying patterns, anomalies, and trends, our tools monitor and flag suspicious activities related to criminal activity. This allows agencies to better leverage human capital, focus on leads with the highest potential, and increase efficiency while pursuing tactical and strategic goals.

With automated data ingestion, analysis and notifications, our solution reduces time spent on data organization, enabling investigators to concentrate on critical tasks and building stronger cases. To learn more about how our solution can elevate your agency's investigative capabilities, contact us today for a personalized consultation.
