

Project Scheduling Steps

Develop the WBS -

A WBS is sort of like a step by step process for accomplishing the goals set out in the project plan

Define tasks and logic -

In this step, the work to be done is further broken down into individual tasks

Estimate task duration -

The duration of each task is estimated, which gives the total project length

Define resources -

Resources can be things like materials or software. One of the most important resources is the project teams' time

Analyze the schedule -

Some of the most important tools available to a project manager are project scheduling techniques
