Practical Help For New Supervisors:

How To Be An Effective Supervisor: Best Practice In Research Student Supervision Eley, Adrian, Murray, Rowena, 2009-05-01 This is a practical guide aimed at supervisors of research students It is written in a lively case study style and is designed to appeal to supervisors who need a quick fix and who have neither the time nor the inclination to read a more detailed in depth book on the subject such as Supervising the Doctorate There is a growing need for such a volume as the QAA postgraduate code of practice in the UK indicates that all new doctoral supervisors must be trained appropriately This book will be very suitable for such training courses The authors both come from a medical background so the book is likely to be particularly well received within scientific and medical departments

Staff and Student Supervision Dorothy E. Pettes, 2021-11-07 Originally published in 1979 this successor volume to Dorothy Pettes earlier Supervision in Social Work volume aimed to provide supervisors and team leaders with the information they needed to function more effectively as either staff or student supervisors in both individual and group supervision It covers the role and function of supervision in modern day social service organisations and compares and contrasts supervision in casework group work community organisation and residential work A final section reports developments in the preparation and teaching of prospective supervisors Staff and Student Supervision was the most up to date and comprehensive book on supervision to be published at the time It provides detailed analysis of the tasks undertaken and the problems faced by both staff and student supervisors while at the same time moving into new and experimental areas The task centred approach as presented by Miss Pettes closely links in with new developments in social work practice and provides the supervisor with a firm base from which to maintain professional accountability and responsible involvement It also suggests ways of involving workers in a flexible two way partnership with the supervisor This approach would have appealed to those preparing to become supervisors for the first time as well as to experienced supervisors ready to develop their skills further to tutors and to training officers who would find much of value in the book and to practitioners generally who would welcome Miss Pettes concise account of the supervisor s role in relation to social work practice and administration
