Civil service reform is occurring at all levels of government both in the United States and abroad. *American Public Service Radical Reform and the Merit System* is a collection of papers that examine the innovations, strategies, and issues found in the contemporary civil service reform debate. Offering diverse perspectives from expert contributors, this book presents matters concerning radical reform and the merit system at the federal, state, and local levels of government. This volume offers fresh insight into the effects of merit system changes on employees. Divided into four sections, this book examines a portrait of contemporary reforms from across the country and concepts to interpret those data. Addresses whether the relaxation of civil service protections against partisan intrusion will result in corruption. Provides examples of ongoing changes and analyzes survey data from state managers. Discusses a variety of key issues such as the impact on racial inequality of moving from a protected class employment status to an unprotected at-will relationship. The book provides a baseline of data on reforms as well as an account of their current promises and pitfalls. Public Service Ethics James S. Bowman, Jonathan P. West, 2014-01-21

Ethics in all its exemplary and exhausting forms matters. It deals with the most gripping question in public life: What is the right thing to do? In *Public Service Ethics: Individual and Institutional Responsibilities*, James Bowman and Jonathan West examine individual-centered and organization-focused ethics, applying ideas and ideals from both to contemporary dilemmas. The authors take on controversial issues from whistle-blowing incidents to corruption exposés to explain how they arise and suggest what can be done about them. They start with the conceptual tools students need to evaluate an ethical dilemma, then analyze individual decision-making strategies and go on to assess institutional ethics programs. The emphasis is not only on the how-to but also on the why. The ultimate goal is to bolster students' confidence and prepare them for the ethical problems they will face in the future by equipping them with the conceptual frameworks and context to approach thorny questions and behave ethically.
