You need this book. As the staff of the *Green Up* and *Minge* work out of control, we found all the little things that make every project work better, and how they are full of surprises and wonder. Learn how to turn everyday objects into something new and to give away to friends or use for yourself. Our simple and comprehensive techniques will make you smarter, better looking, and more self-sufficient. *Shoshana Berger* and *Grace Neumann*, the founders of *ReadyMade* magazine, have led and cared for this journal. It will not be discontinued. It runs, wild and beautiful free.

Readymade How To Make Almost Everything A Doityourself Primer:

The New York Times Practical Guide to Practically Everything, Second Edition Amy D. Bernstein, Peter W.

Bernstein, 2009-11-24 All the wisdom of The New York Times experts in every field is packed into one comprehensive volume that has been completely revised and updated. Illustrations throughout. **The New York Times Practical Guide to Practically Everything** Amy D. Bernstein, Peter W. Bernstein, 2006-10-17 A collection of information on aspects of daily life and a variety of popular topics such as the home, health, animals, nature, sports, and entertainment. **ReadyMade** Shoshana Berger, 2005 A partly serious, partly humorous look at materials we usually discard. The work provides step-by-step instructions on how to transform paper, plastic, metal, wood, concrete, and fabric into such unlikely and undesirable household items as a chopstick clock or a colander light sconce. Berger and Hawthorne, the editor in chief and publisher respectively of ReadyMade magazine, also include acknowledged failures such as the water bottle lounge chair, too fragile and noisy to sit on. Each section begins with a history of the raw material, designed to make readers more aware of the environment and the uses of these materials. In addition to proposing new uses for FedEx boxes, a CD rack, and plastic detergent containers, an ultraclean coat rack, the authors also offer how-to advice, both silly (how to write a love note) and useful (how to self-publish). The playfulness extends to noncraft instruction on what to do with plastic, how to start a business on credit cards, and glass. How to break through your own glass ceiling. Inspired by Marcel Duchamp, who coined the term readymade, the authors are interested in encouraging creative thinking as much as if not more than making repurposed objects. Photos. **Ready Made** Shoshana Berger, Grace Hawthorne, 2006 A cult publication that describes itself as a magazine for people who like to make stuff who see the flicker of invention in everyday objects. It includes design projects from water bottle lounge chairs and ladder shelving to shopping bag rugs and denim dog beds. **Rubbish!** Kate Shoup, 2008-06-23 Want to know what goodies you can make with your garbage? This book shows you how to give everyday household items a new life the hip craftster's way. You'll discover how to complete more than 30 creative projects using materials you already have at your disposal while reducing trash and upcycling your personal style. From a credit card bracelet to a map photo frame, this fun guide shows you how to create truly one-of-a-kind pieces, one earth-friendly project at a time. *Architects* Thomas Yarrow, 2019-07-15 What is creativity? What is the relationship between work life and personal life? How is it possible to live truthfully in a world of contradiction and compromise? These deep and deeply personal questions spring to the fore in Thomas Yarrow's vivid exploration of the life of architects. Yarrow takes us inside the world of architects, showing us the anxiety, exhilaration, hope, idealism, friendship, conflict, and the personal commitments that feed these acts of creativity. *Architects* rethinks creativity, demonstrating how it happens in everyday practice. It highlights how the pursuit of good architecture relates to the pursuit of a good life in intimate and individually specific ways. And it reveals the surprising and routine social negotiations through which designs and buildings are actually made. The Creative Family Amanda Blake Soule, 2008-04-01 When you learn to
