Reading McDowell:

Reading McDowell Nicholas Smith, 2002-11 Internationally renowned contributors analyse and discuss John McDowell's challenging *Mind and World* Concludes with responses from McDowell himself An important contribution to analytic philosophy and the broader philosophical debate

God, Value, and Nature Fiona Ellis, 2014 This book takes on board the assumption that we should be naturalists and argues that the position can accommodate the idea of God Naturalism and theism are no longer logically incompatible and the fashionable atheism of our times is shown to depend upon an unwarranted commitment to scientism and a questionable conception of God

The Problem of Objectivity in Gadamer's Hermeneutics in Light of McDowell's Empiricism Morten S. Thaning, 2015-08-21 This book reassesses Gadamer's hermeneutics by bringing it into a dialogue with John McDowell's minimal empiricism It employs the resources of McDowell's minimal empiricism to address the transcendental and ontological presuppositions for objective experience and understanding while retaining Gadamer's emphasis on the historicity of understanding By means of the dialogue with McDowell the book develops a hermeneutical conception of objectivity and perceptual experience which also entails reinterpretations of Gadamer's notions of tradition practical wisdom and meaning The book explores the philosophical space beyond the analytic Continental divide and demonstrates that hermeneutics is not limited to a reflection on understanding as it is practiced in the human sciences but can be revived as a distinct and cogent philosophical approach with a transcendental and ontological dimension Thaning's book is a richly detailed well argued and coherent presentation of a defensible and potentially very important philosophical position It demonstrates an impressively deep understanding of the literature both from the phenomenological tradition and from the part of the analytical tradition inspired by Wilfred Sellars to which John McDowell belongs Being a substantial philosophical achievement in its own right the book raises far reaching questions that will be of interest to a wide audience Dr Steven Crowell Rice University Houston USA Morten Thaning's book is an important contribution to the discourse of philosophical hermeneutics Thaning extensively discusses a topic which recent debates have touched upon but which up to now has not been the subject matter of concentrated scholarly work the relation between Gadamer's hermeneutics and McDowell's empiricism With Thaning's interpretation Gadamer work can be read anew as concerning the problem of hermeneutical objectivity Prof Dr G nter Figal University of Freiburg Germany

The Relevance of Hegel's Concept of Philosophy Luca Illetterati, Giovanna Miolli, 2021-12-16 In a systematic treatment of Hegel's concept of philosophy and all of the different aspects related to it this collection explores how Hegel and his understanding of his discipline can be put into dialogue with current metaphilosophical inquiries and shed light on the philosophical examination of the nature of philosophy itself Taking into account specific aspects of Hegel's elaboration on philosophy such the scientificity of philosophy as a self grounding rational process and his explanation of the relationship between philosophy and the history of philosophy an international line up of contributors consider Hegel's concept of

philosophy in general from skepticism idealism history and difference to time politics and religion The relation of Hegel s concept of philosophy to other philosophical traditions and philosophers including Kant Fichte Schelling and Jacobi Hegel s concept of philosophy with reference to philosophy s relation to other forms of rationality and disciplines The relation of Hegel s concept of philosophy to specific issues in present metaphilosophical debates Reflecting the renewed and widespread interest in Hegel seen in Analytic philosophy and Continental thought this volume advances study of Hegel s conceptual tools and provides new readings of traditional philosophical problems

As If! Chase Gregory,2025-07-11 Chase Gregory explores the work of four early queer literary critics arguing that their work productively highlights the difficult relationship between identity and academic authorship

[The Impact of the Media](#) Michael Welker,Jurgen von Hagen,John Witte,Stephen Pickard,2023-05-31 Pluralism has become the defining characteristic of modern societies Individuals with differing values clamor for equality Organizations and groups assert particular interests Social movements flourish and fade Some see in this clash of principles and aims the potential for a more just human community while others fear a cultural erosion Yet beneath this welter stand powerful and pervasive institutions whose distinctive norms profoundly shape our moral commitments and character Specialists on media and communication journalism television theologians economists sociologists philosophers and ethicists discuss the many functions and challenges the media pose to the communication and orientation in late modern pluralistic societies Contributions come from Germany the UK France the USA South Africa and Australia

Mind, Meaning and World Ramesh Chandra Pradhan,2019-04-25 The present book intends to approach the problem of mind meaning and consciousness from a non naturalist or transcendental point of view The naturalization of consciousness has reached a dead end There can be no proper solution to the problem of mind within the naturalist framework This work intends to reverse this trend and bring back the long neglected transcendental theory laid down by Kant and Husserl in the West and Vedanta and Buddhism in India The novelty of this approach lies in how we can make an autonomous space for mind and meaning without denying its connection with the world The transcendental theory does not disown the embodied nature of consciousness but goes beyond the body in search of higher meanings and values The scope of this work extends from mind and consciousness to the world and brings the world into the space of mind and meaning with a hope to enchant the world The world needs to be retrieved from the stranglehold of scientism and naturalism This book will dispel the illusion about naturalism which has gripped the minds of our generation The researchers interested in the philosophy of mind and consciousness can benefit from this work
