God Over All William Lane Craig, 2016 The book is a defense of God s unique status as the creator of all things apart from himself in the face of the challenge of mathematical Platonism It is based on William Lane Craig s Cadbury Lectures given at the University of

Birmingham in March 2015 **In Quest of the Historical Adam** William Lane Craig,2021-09-28 Was Adam a real historical person If so who was he and when did he live William Lane Craig sets out to answer these questions through a biblical and scientific investigation He begins with an inquiry into the genre of Genesis 1 11 determining that it can most plausibly be classified as mytho history a narrative with both literary and historical value He then moves into the New Testament where he examines references to Adam in the words of Jesus and the writings of Paul ultimately concluding that the entire Bible considers Adam the historical progenitor of the human race a position that must therefore be accepted as a premise for Christians who take seriously the inspired truth of Scripture Working from that foundation of biblical truth Craig embarks upon an interdisciplinary survey of scientific evidence to determine where Adam could be most plausibly located in the evolutionary history of humankind ultimately determining that Adam lived between 750 000 and 1 000 000 years ago as a member of the archaic human species Homo heidelbergensis He concludes by reflecting theologically on his findings and asking what all this might mean for us as human beings created in the image of God literally descended from a common ancestor albeit one who lived in the remote past **Australian Book Review** ,2005 The Magazine of Fantasy & Science Fiction ,1996 *Reports of Cases Argued and Determined in the Supreme Court of Appeals of West Virginia* West Virginia.
